33rd (Thirty-Third) Annual General Meeting ("33rd AGM") of the Equity Shareholders of Godrej Agrovet Limited held on Thursday, August 1, 2024 by means of Video Conferencing (VC) / Other Audio-Visual Means (OAVM) commenced at 4.00 p.m. (IST)

Sub: Passing of Resolution(s) through electronic voting pursuant to Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 "Rules" as amended, the General Circular No. 14/2020 dated April 8, 2020, General Circular No. 17/2020 dated April 13, 2020, General Circular No. 20/2020 dated May 5, 2020, General Circular No. 02/2021 dated January 13, 2021, General Circular No. 19/2021 dated December 8, 2021, General Circular No. 21/2021 dated December 14, 2021, General Circular No. 2/2022 dated May 5, 2022 and General Circular No. 10/2022 dated December 28, 2022 (collectively referred to as "MCA Circulars"), read with circulars, No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated May 12, 2020, Circular No. SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated January 15, 2021, Circular No. SEBI/HO/CFD /CMD2/CIR/P/2022/62 dated May 13, 2022 and Circular No. SEBI/HO/CFD/Pod-2/P/CIR/2023/4 dated January 5, 2023 issued by the Securities and Exchange Board of India (SEBI) commonly referred to as "**Applicable Circulars**".

I, Avinash Bagul, Partner of BNP & Associates, Companies Secretaries, have been appointed by the Board of Directors of Godrej Agrovet Limited (*hereinafter referred to as the "Company"*) at its Meeting held on May 8, 2024, as the Scrutinizer for the Remote E-voting process as well as to scrutinize the electronic voting (E-Voting) conducted during the 33rd AGM pursuant to Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 and in accordance with Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended by the Applicable Circulars issued in this connection both by MCA and SEBI, providing relaxation for the manner in which the AGM shall be held and conducted through VC or OAVM.

The Applicable Circulars provide for relaxation in the manner in which the AGM will be held including the manner of sending the Notices and Annual Reports to the shareholders and the manner of voting at the meeting. I say, I am familiar and well versed with the concept of electronic voting system as prescribed under the said Rules and the relaxations as provided in the Applicable Circulars.

As mentioned in the Notice, the proceedings of the 33rd AGM will be deemed to be conducted at the Registered Office of the Company which shall be the deemed Venue of the AGM.

Report on Scrutiny:

- The Company had appointed National Securities Depository Limited ('NSDL') as the Service Provider, for the purpose of providing the facility of Remote E-Voting to the Members of the Company and for E-voting conducted during the 33rd AGM.
- KFin Technologies Limited ('Kfintech'), (formerly KFin Technologies Private Limited) is the Registrar and Share Transfer Agents ('RTA') of the Company.
- NSDL had provided a system for recording the votes of the Members electronically through Remote E-voting as well as E-voting conducted during the 33rd AGM on all the items of the business (both Ordinary and Special businesses) sought to be transacted in the 33rd AGM of the Company, which was held on **Thursday, August 1, 2024**.
- NSDL had set up electronic voting facility on their website, <https://www.evoting.nsdl.com>. The Company had uploaded all the items of the business to be transacted at the 33rd AGM on its and on NSDL website and on the websites of BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE") (Stock Exchanges where the Equity Shares of the Company are listed), to facilitate their members to cast their vote through Remote E-Voting.
- The Management of the Company is responsible for ensuring compliance with the requirements of the Act and the Rules there under and SEBI Listing Regulations.
- My responsibility as the Scrutinizer of the voting process (through E-voting), was restricted to scrutinize the E-voting process (Remote E-voting and E-voting conducted during the 33rd AGM), in a fair and transparent manner and to prepare a Combined Scrutinizer's Report of the votes cast in favour and against the resolutions stated in the Notice, based on the reports generated from the E-voting system provided by NSDL.
- The internal cut-off date for the dispatch of the Notice of the AGM was July 5, 2024, and as on that date, there were 1,01,108 Members of the Company. As mentioned in the Applicable Circulars, NSDL had sent the Notices of the AGM along with Annual Report for the Financial Year 2023-24 and E-voting details by email to **96,214** Members constituting **96.41%** of the total members, whose email IDs were made available by the Depositories. For those Members whose email IDs were not available, or holding shares in physical form and who had not registered their email IDs with the RTA the Notices could not be sent. The Company had advertised in the newspapers, asking those Members who have not provided their email IDs to do so and to the extent, details were provided by the Members were considered for sending the Notice of the 33rd AGM. The Notices sent through email contained the detailed procedure to be followed by the Members who were desirous of casting their votes electronically as provided in the Rule 20 of the Companies (Management and Administration) Rules, 2014 as amended and as provided in the Applicable Circulars.

- The Cut-off date for the purposes of identifying the Members who will be entitled to vote on the resolutions placed for approval of the Members was **Thursday, July 25, 2024**.
- As prescribed in the aforesaid Rules, the Remote E-Voting facility was kept open for 4 (Four) days from **Sunday, July 28, 2024, at 9.00 A.M. to Wednesday, July 31, 2024 at 5.00 P.M.**
- The Company completed the dispatch of the notices by email to the Members on **Wednesday, July 10, 2024**.
- As prescribed in **Clause IV of the Circular dated May 5, 2020, issued by MCA**, which is forming part of the Applicable Circulars, the Company had released an advertisement prior to sending Notices to the Shareholders which was published in English in "Business Standard" on June 26, 2024, newspaper having wide circulation in the district where the Registered Office of the Company is situated and in Marathi in "Mumbai Lakshadeep" on June 26, 2024. The Notice contained the required information as provided under clause IV (a) to (g) of the said circular.
- As prescribed in **clause (v) of sub rule 4 of Rule 20 of the Companies (Management and Administration) Rules, 2014**, the Company also released an advertisement, which was published more than 21 days before the date of the 33rd AGM in English language in "Business Standard" & "Financial Express" newspapers having country-wide circulation on **Thursday, July 10, 2024** and in Marathi language in "Mumbai Lakshadeep" & "Loksatta" newspaper on **Thursday, July 10, 2024**.
- The notice published in the newspaper carried the required information as specified in Sub Rule 4(v) (a) to (h) of the said Rule 20.
- At the end of the voting period on **Friday, July 31, 2024 at 5.00 P.M.**, the voting portal of the NSDL, service provider was blocked forthwith.
- At the **33rd AGM of the Company held through VC, on Thursday, August 1, 2024**, after considering all the items of businesses, the facility to vote electronically (E-voting) was provided to facilitate those members who are attending the 33rd AGM through VC but could not participate in the Remote E-voting to record their votes.
- **On Thursday, August 1, 2024, after tabulating the votes cast electronically by the system provided by NSDL**, the votes cast through Remote E-Voting facility and E-voting during the 33rd AGM were duly unblocked by me as a Scrutinizer in the presence of Ms. Tejaswini Bhandarkar and Ms. Rupali Tiwari who acted as the witnesses, as prescribed in Sub Rule 4(xii) of the said Rule 20. After the voting by electronic means the votes cast through Remote E-voting process was tabulated for the purpose of considering the total votes cast by the shareholders through both ways.

Thereafter, I, as a Scrutinizer duly compiled details of the Remote E-Voting carried out by the Members and the E-voting held during the AGM, the details of which are as follows:

The results of the Remote E-voting together with the e-voting conducted during the 33rd AGM are as under:

FROM THE DESK OF THE **CHAIRMAN**

NADIR GODREJ

Dear Shareholders,

It is my privilege to present to you Godrej Agrovet Limited's Annual Report for the Financial Year 2023-24. I hope this letter finds you and your families well and safe.

The global economy demonstrated remarkable resilience in the Financial Year 2023-24, navigating through various challenges such as persistent inflationary pressures, aggressive monetary policy tightening by central banks, continuation of geopolitical tensions, elevated public debt amidst tight financial conditions, weak recovery in China, etc. Concerted efforts by policymakers and structural reforms aimed at boosting productivity emerged as key focus areas to sustain global economic expansion.

India remains a bright spot in the revival of global economy. India's growth continued to be resilient

and India's GDP is estimated to grow by 8.2% in the Financial Year 2023-24 as compared to the growth rate of 7.0% in the Financial Year 2022-23. This exceptional performance is a testament to India's robust economic momentum and resilience.

The year gone by, turned out to be highly favourable for your Company in terms of increasing our overall profitability as compared to the previous year. Our Profit Before Tax (PBT) grew by 22% from ₹346 Crore in the Financial Year 2022-23 to ₹421 Crore in the Financial Year 2023-24. The growth in profitability was primarily driven by exceptional performance of domestic Crop Protection business, structural turnaround of Dairy business, market share gains in Animal Feed and robust volume and margin growth in branded products in our Poultry business.

Before we dive into performance for the year, I would like to express my sincere gratitude to all our Shareholders for their unwavering trust and support in Godrej Agrovet Limited, especially during these volatile times. We truly value your contribution and remain steadfast in our commitment to create sustainable and long-term value for our esteemed Shareholders.

Sustained topline and robust growth in bottom line lays down a strong foundation for improved performance in the coming years

While the year presented numerous challenges, we made sure that the majority of your Company's businesses remained focused on increasing their market share and achieving robust volume growth. In the Animal Feed business, overall volume growth was ahead of the industry, supported by strong growth in Cattle Feed and Fish Feed categories. Profitability of ACI Godrej Agrovet Private Limited, Bangladesh (your Company's joint venture), improved remarkably on account of lower input costs. The Dairy business has successfully transformed its profitability structure in the Financial Year 2023-24 due to improvement in operational efficiencies and improved milk spreads. Sustained improvement in salience of Value Added Products (VAP) has also helped to boost margins.

In the Poultry and Processed Food business, our focus is on brand-building and channel expansion which helped in improving profitability along with consistent improvement in volumes. Improvement in profitability was also attributable to the higher live bird prices this year.

The Crop Protection business has delivered an outstanding performance throughout the Financial Year 2023-24. This was primarily driven by strong growth in sales of in-house and in-licensed portfolio and lower sales returns as compared to the Financial Year 2022-23. As a result, our topline grew by 36.8% and our segment margin stood at 31% in the Financial Year 2023-24.

Your Company's subsidiary, Astec LifeSciences Limited, delivered a strong topline and margin expansion in the Contract Manufacturing business segment. This positive performance was overshadowed by subdued performance in Enterprise products due to lower sales realisations and margins due to severe demand supply imbalance. We have commercialized new products in Quarter 4 of the Financial Year 2023-24, aided by the strong R&D capabilities to accelerate portfolio diversification.

For Vegetable Oil business, Financial Year 2023-24 was a very challenging year due to lower realisations, which came off record highs of Financial Year 2022-23. We have successfully commissioned the refinery and solvent extraction plant which will help to reduce the impact of volatility in prices of Crude Palm Oil (CPO) and Crude Palm Kernel Oil (CPKO).

Robust Balance Sheet, bolstering long-term sustainability

During the Financial Year 2023-24, your Company achieved an improvement in working capital profile and low debt to equity ratio. Net working capital days reduced to 43 days in the Financial Year 2023-24 as compared

to 47 days in the Financial Year 2022-23. This was achieved through a steadfast focus on credit hygiene and accelerated customer collections, primarily in domestic Crop Protection business. Also, your Company have lowered the debt-to-equity ratio from 0.48 in Financial Year 2022-23 to 0.45 in Financial Year 2023-24 reflecting a strong balance sheet, thus bolstering the Company for long term sustainable growth trajectory.

R&D and other future-ready investments to aid in long-term consistent growth

Godrej Agrovet continues to invest strategically in cutting-edge R&D capabilities across its business segments. Our subsidiary, Astec LifeSciences Limited, recently launched an advanced R&D Center for Chemical Research, complementing our existing facilities in Animal Feed, Oil Palm and Crop Protection. These timely investments position us at the forefront of innovation in the competitive agriculture sector. By strengthening our R&D infrastructure now, we aim to accelerate the development and commercialization of new products, enabling Godrej Agrovet's sustainable growth and market leadership in the coming years.

Way Forward

While our strategic focus areas remain largely unchanged, allow me to reiterate some of our commitments under our long-term sustainable growth plan. At Godrej Agrovet, we recognize that the Food and Agri businesses, not just in India but globally, are inherently volatile in nature. To effectively navigate this intrinsic industry characteristic, we have strategically diversified our operational portfolio over the years. Additionally, we benefit from operational efficiencies and economies of scale by centralizing and sharing certain key functions across our businesses, such as finance, legal, information technology, strategy, manufacturing and human resources.

As we look to the future, our Company is dedicated to enhancing resilience and profitability across all business segments. Our strategy aims to mitigate exposure to cyclical market fluctuations and increase the share of high-margin products in our portfolio. In Creamline Dairy, we will capitalise on the operational efficiencies achieved this year and increasing the contribution of the value-added products' portfolio in the overall business mix. For Godrej Tyson, our efforts are to consciously scale down the live bird contribution to the overall mix and scaling up the branded business which is margin accretive.

Going forward our focus will be on the Contract Manufacturing (CDMO) operations of Astec LifeSciences. With the help of the new state-of-the-art R&D centre in operation, we will leverage this asset to increase the contribution of CDMO segment within our overall revenue mix. In the domestic Crop Protection segment, we aim to diversify our product portfolio to serve both harvesting seasons and further developing a pipeline for in-licensed and in-house products. Meanwhile, in Vegetable Oil segment, we will concentrate on unlocking margins across the value chain through initiatives such as refining, solvent extraction and waste-to-wealth strategies.

These strategic moves position us to create sustainable value and drive growth in the coming years, reinforcing our commitment to agricultural innovation and operational excellence.

Digital Transformation – a must to achieve efficiencies

At Godrej Agrovet, we have embarked on a digital transformation journey to support the ambitions of our diverse business portfolio. During the Financial Year 2023-24, your Company dedicated significant efforts towards this endeavour, spanning most of our businesses. We commenced by identifying key problem statements and subsequently crafted a comprehensive future roadmap aimed at achieving desired efficiencies, automation and intelligence across our operations.

Building on this momentum, your Company plans to implement several such digital initiatives across sales and marketing, supply chain and manufacturing operations, enabling us to stay ahead of the curve and deliver exceptional value to our stakeholders.

Sustainability – A Godrej way of doing business

At Godrej Agrovet, our commitment to environmental issues and community development has always been meaningful and long-term, with a deep purpose. Your Company's sustainability targets are guided by the Godrej Group's Good & Green vision of creating a more inclusive and greener world. We are one of the two companies in Indian agricultural sector to be included in the "A" list – leadership band of Climate Disclosure Project (CDP). GAVL CDP scores are ahead of the global averages. We made good progress towards achieving 2025 sustainable targets led by a 77% of energy consumption from clean renewable energy sources as against a target of 90% and being water positive Company already conserving 20x more water than our consumption. Towards achieving Carbon Neutrality by 2035, we have sequestered 29,750 MT of CO₂ in Financial Year 2023-24 which accounts for 28% of the annual CO₂ emission target of GAVL. We have reduced our specific Green House Gas (GHG) emission by 22%, already ahead of the targeted 15% by 2026.

During the year, your Company successfully completed submission of Green House Gas (GHG) emissions reduction roadmap target in line with Science Based Target's (SBTi) "Well Below 2°C" scenario. In doing so, your Company became one of the first Agri companies in India to commit to reduction in Scope 1 & Scope 2 GHG emissions by 37.5% and Scope 3 emissions by 16.0% by 2035. The targets were also validated and approved by the global SBTi committee.

On the people front, our livelihood and entitlement enablement initiatives continue to focus on sustainable economic development of vulnerable and low-income sections of the society. Our CSR programmes positively impacted the livelihoods of over 10,000 households and benefited more than 1,100 students.

At Godrej Agrovet, we strive to create a safe and dignified working environment. We value diversity within the Godrej Group and are committed to offering equal opportunities.

Before I conclude, on behalf of the Board of Directors and the Management, I would like to thank our employees, business partners, customers, vendors, investors and other stakeholders for their trust, efforts and contribution to the Company. We sincerely hope for your continued support as we take this Company forward, the Godrej way.

Case Study - 1

A quiet revolution in dairy farming

Every glass of nutritious milk carries with it a carbon footprint. Worldwide producing milk contributes to about 4% of all global greenhouse gas (GHG) emissions. A study by the Food and Agriculture Organization, estimates that farms globally emit about 1.4kg CO₂e / per kg of milk. However, the Godrej Cattle Genetics farm's most recent carbon footprint calculations revealed that our farms emit almost half the emission of the global average, at about 0.7kg CO₂e / per kg of milk. The farm of 1,200 cattle located in the outskirts of Nashik, Maharashtra blends innovation and tradition seamlessly to improve productivity and quality while reducing emissions.

First, the focus on cattle health and feed with smart technology has enabled the average milk yield at 26 kg per day which is almost double the national average. That's not just good for the farm but it's good for the environment as each kg of milk comes with almost half the carbon footprint. Second, with the state-of-the-art embryo management technology, the farm cuts down on decade long breeding programme and produces highest quality in-vitro-ready-for-transfer-pedigree embryos. So you can get a high breeding cattle in just 3 years. Lastly, the farm channels all cattle waste to an in-house biogas plant, generating about 500 kWh/day, accounting for over a quarter of the plant's energy needs.

With a mix of innovation, technology and a commitment to sustainability, the dairy farm not only produces nutritious milk but also nurtures a healthier planet.

Case Study - 2

Enhancing farmer well-being through a sustainable approach to palm oil cultivation

Your Company's Oil Palm business is connected with over 10,000+ palm oil farmers across our six oil mills in India. In our operations, we put farmer welfare foremost. Our partnership with any farmer cultivating oil palm begins with a detailed questionnaire. This questionnaire helps to understand the background of the farmers, their farmland, crops cultivated, and technology-fertilisers used, among others.

We work closely with the farmers right from planting the seeds, using the right fertilisers while maintaining seed health, harvesting techniques and equipment use till the final stage of procuring the palm fruit kernels. To ensure traceability and transparency, we have developed a web-based portal & an app 'Farmer Management System' for farmers and agents. Every farmer, agent, and collection centre has a unique code that helps to distinguish farmers and also get data history about past cultivations.

The fields we are working with are also geo-tagged with more than 95% accuracy levels on tree count, giving us a display of all the fields we work with. We ensure the wellbeing of the farmers and their families during the entire stretch from planting to harvesting and provide support if there is any accident or health crisis. With farmers, we envision making India a dominant and sustainable player in the oil palm market.

Engaging With Communities

At Godrej Agrovet, we are committed towards inclusive and equitable development of our communities and the societies which are at the base of the social pyramid. In FY 2023-24, we made significant efforts towards sustainable development of the marginalised and underprivileged communities through various livelihood, education and entitlement programmes in partnership with the non-profit organisations and social enterprises.

Our various CSR programs covered 78,000+ beneficiaries across the country while supporting 16,000+ students in various capacities.

Livelihoods & Entitlements

Water Stewardship

Other work based on the community needs Livelihoods & Entitlements

Livelihoods and Entitlements

Our livelihoods and Entitlement programmes are aimed at economic development of the vulnerable and low-income sections of the society, in line with our belief of their inclusive & equitable development.

Under Value Chain and Grameen Vikas initiatives in FY 2023-24, 3,059 agri farmers benefitted through the crop management and bee hotel management training and 61,249 animal husbandry farmers were reached through the capacity building sessions on nutrition and disease management. 625 floriculture farmers trained on best agricultural practices including land preparation, fertilizer management through agri-demo, exposure visits, farmer field school resulting in reduction of input cost by INR 8,000/farmer/month on fertilizer and an adaption of 70%. With the aim of creating supplemental income, as well as an opportunity to improve livelihoods for the communities, we supported women from the self-help groups in setting up small scale enterprises, for 163 families.

Households benefited through our Entitlement programmes by connecting them with the Govt. welfare schemes

Farmers were trained on improved agricultural practices that resulted into profit generation for them

Animals covered through vet camps leading to savings for farmers

Small scale enterprises set up by women of the Self Help Groups to supplement their household income

Watershed Management

Our Integrated Watershed Development Project aims at restoring the ecological balance in the drought prone areas of Magadi in Karnataka, Barwani in Madhya Pradesh and Nashik in Maharashtra. In Barwani and Magadi, we have partnered with NABARD, efforts are made to recharge the groundwater, make it available for irrigation and to reduce the effect of climate change on the farmers. The local communities are trained in water management and sustainable agriculture practices.

Farmers have been covered through the project by providing support for livelihood and capacity building

of land covering in Magadi, Barwani and Nashik has been treated under the project

of water has been sequestered in FY 2023-24

Education

Around our manufacturing plants in Maharashtra and Uttar Pradesh, with the help of our NGO partner, we have set up digital cafes with pre-loaded syllabus and videos in the educational tablets to facilitate learning for the children from class 6 – 10. The Café also serves as coaching institute for the rural students.

Students watched over 36,000+ hours of digital educational content through our digital cafes

Community development

Under our community development initiatives, 15,000 rural youth were trained across 175 schools in technical, business and leadership skills needed in modern, sustainable agriculture and enterprise. We facilitated training on Indian Music as well as supported school infrastructure for 550+ students.

Case Study - 3

Improving Dairy farming practices

GAVL has been running comprehensive dairy programmes in three blocks of Tamil Nadu to support dairy farmers and improve cattle management practices. The programme aims to increase milk yield and income for farmers with activities such as veterinary camps, artificial insemination, and training on cattle management.

In veterinary camps, the farmers address health issues, establish vaccination schedules, and learn preventive measures to ensure the health of their cattle. Artificial insemination services are offered to enhance the genetic potential of dairy cattle, improving breed quality and milk productivity. The training sessions on cattle management equip farmers with essential skills and knowledge about proper feeding practices, hygiene standards, and efficient farm management techniques to optimise milk production and ensure the well-being of their cattle.

The programme is playing a crucial role in transforming the dairy sector in Tamil Nadu, benefiting both farmers and the community. In FY23-24, we have reached out to 9,400 farmers and provided service to over 14,000 cattle through veterinary camps.

Management Discussion and Analysis Report

A. Indian Economic Overview

Global economies which were impacted by uncertainties and volatility on account of Covid-19 fallout, prolonged geopolitical conflicts and monetary tightening by central banks amidst inflationary trends are witnessing gradual resurgence, marked by waning fears of recession and rebounding growth in major economies. However, there are some regional incongruences, with some regions experiencing subdued economic activity on account of geopolitical tensions. Globally, inflation management continues to remain a key priority. Despite these challenges, leading indicators suggest an overall expansion in economic activity driven by both manufacturing and service sectors.

India remains a bright spot in the revival of the global economy. The Indian economy continued to exhibit robust economic performance with broad-based growth across sectors. RBI also, in its recent MPC meeting, noted the strong growth momentum in the economy and projected real GDP growth for 2024-25 at 7 percent, driven by a pickup in rural demand and sustained momentum in the manufacturing sector. In its April 2024 WEO, IMF revised upwards its estimate of India's GDP growth for FY 2023-24 to 7.8 percent and of estimated a growth rate 6.8 percent in 2024-25 based on its assessment of strength in domestic demand and demographic advantage. In March 2024, India witnessed a surge across multiple economic indicators, reflecting robust and resilient business activity. The month marked significant milestones, from record-breaking performances in the stock market to remarkable advancements in tax revenue collection. The buoyancy extended to the manufacturing and services sectors, as evidenced by the soaring HSBC India Manufacturing PMI and Services PMI. The gross GST collections for the month of April 2024 hit a record high of ₹2.10 lakh crore which is a growth of 12.4 per cent year-on-year. In March 2024, the HSBC India Manufacturing PMI surged to an impressive 59.2, a notable increase from the final figure of 56.9 recorded in the previous month. This marks the fastest growth in factory activity since February 2008.

In March, India's services sector hit a peak, with exports surging to a fiscal year high. The HSBC India Services PMI soared to 61.2, marking one of the sector's most significant expansions in sales and business activity in nearly 14 years.

The Index of Industrial Production (IIP) for February 2024 brought forth encouraging insights into India's industrial landscape.

High inflation though, was a key challenge for the Government and this has resulted in RBI holding on to high policy rates and rise in lending rates.

Overall, India continues to be the fastest-growing major economy with positive assessments of the growth outlook for the current financial year, for India by international organisations and RBI.

B. Indian Agricultural Sector Overview

Agriculture and allied sectors continue to remain one of the most important sectors of the Indian economy and is the main source of livelihood for ~55% of India's population.

India has the world's largest cattle herd, the largest area planted for wheat, rice, and cotton, and is the largest producer of milk, pulses, and spices in the world. It is the second-largest producer of fruit, vegetables, tea, farmed fish, cotton, sugarcane, wheat, rice, cotton, and sugar. The agriculture sector in India holds the record for second-largest agricultural land in the world generating employment for about half of the country's population. Thus, farmers become an integral part of the sector to provide us with a means of sustenance.

The agriculture and allied sectors have remained resilient throughout the pandemic and geopolitical conflicts and is estimated to have grown by 0.7% in Financial Year 2023-24, as per Second Advance Estimates by Central Statistical Office (CSO).

Foodgrains production declined in kharif season due to deficient and unevenly distributed rainfall (both spatially and temporally) along with depleting reservoir levels. As of March 28, 2024 reservoir levels were at 36 per cent of the full capacity, below the last year's level of 43 percent.

Foodgrains production for 2023-24 is estimated at 3,093.5 lakh tonnes, 1.3 per cent lower than the final estimates of last year (as per Second Advance Estimates). Among major crops, the output of rice declined while that of wheat rose. Pulses production dropped with a sharp decline recorded during the kharif season. Among commercial crops, the output of oilseeds, cotton and sugarcane registered a sharp decline vis-à-vis last year. As per the First Advance Estimates (FAE), the production of horticultural crops during 2023-24 was placed at 355.3 million tonnes, marginally lower than the final estimates of 2022-23 and 1.2 per cent higher than the FAE of 2022-23

The high frequency indicators exhibit a mixed picture of rural activity as two-wheeler sales, agriculture credit and MNREGA demand indicate buoyancy while tractor sales and fertiliser sales suggest some softness in activity during H2. Prospects of rural activity, however, appear bright due to better prospects of agricultural output amidst the IMD's forecast of an above normal south-west monsoon in 2024 and accelerated pick up in informal sector activity.

The interim budget for FY24-25 has promised stepping up of value addition in agricultural sector and boosting farmer's income and has made substantial budgetary allocations as below:

Interim Budget Financial Year 24-25 – Highlights for the agriculture sector

- ***The allocation for the Agriculture ministry has been set at ₹1.27 lakh crore exhibiting an increase from revised estimates of ₹1.16 lakh crore in FY 23-24***
- ***Outlay for agriculture and allied activities enhanced to ₹1.47 trillion in FY2025 Budget Estimates (BE) from ₹1.41 trillion in 2023-24 Revised Estimates (RE)***
- ***Allocation towards modified interest subvention scheme increased to ₹226 billion for FY2025 BE from ₹185 billion for FY2024 RE***
- ***Allocation for Rashtriya Krishi Vikas Yojna increased to ₹75.5 billion for FY2025 BE from ₹61 billion for FY2024 RE***
- ***Allocation of ₹600 billion for FY2025 BE towards the Pradhan Mantri Kisan Samman Nidhi Yojna remains at similar levels as FY2024 RE***
- ***Promotion of private and public investment in post-harvest activities, including aggregation, modern storage, efficient supply chains, primary and secondary processing, as well as marketing and branding***

In view of the above mentioned, agriculture output is expected to remain robust and the sector is likely to continue on a growth path.

C. Key Business Segments

Your Company is a diversified, research and development focused agri-business company with operations across 5 (five) business verticals – animal feed, crop protection, oil palm, dairy and poultry and processed foods. The Company focuses on improving the productivity of farmers by innovating products and services that sustainably increase crop and livestock yields. Detailed information on the current performance and future strategy of these business segments is as below:

Animal Feed Business

The Animal feed business continued the growth momentum with sustained volume growth in key categories ahead of the industry average. Profitability improved significantly on account of softened commodity prices and improved realisations and your Company registered a growth of 31% in segment margins in Financial Year 2023-24. Cattle feed segment continued to reinforce its dominant position in Western region steered by portfolio of new products launched over the last few years. All of these recent products, with Samruddhi in particular, continued to witness a surge in demand and registered a robust volume. Aqua feed segment also recorded a growth in volumes in Financial Year 2023-24 led by market share gains in fish feed across key markets.

During the year, your Company infused additional investment of ₹25 Crore in Godrej Cattle Genetics Private Limited ("GCGPL") for business expansion and day-to-day operations. Having stabilised lab operations and onboarded large strategic customers, GCGPL continued to achieve new milestones in embryo production and sales.

Godrej Agrovet's 50:50 joint venture with Advanced Chemical Industries Limited (ACI), Bangladesh, named ACI Godrej Agrovet Private Limited, maintained robust growth momentum by further consolidating its market share in Bangladesh across categories and recording a modest 8% growth in top-line but a massive 117% year-on-year growth in bottom line.

In the coming year, Animal Feed business will remain committed to gain further share in its established markets while expanding into newer regions with new product development efforts backed by its R&D setup. Your Company will also launch several new initiatives to build a strong brand visibility and a deeper customer loyalty in an otherwise unorganised market by fully integrating its digital initiatives.

CROP PROTECTION

Crop Protection Business

In Financial Year 2023-24, deficient and unevenly distributed rainfall along with lower reservoir levels led to weak performance of domestic agrochemicals sector.

In the midst of a challenging year for the sector, GAVL's standalone Crop Protection business (CPB), delivered a stellar performance in Financial Year 2023-24. The segment registered a topline growth of 37% year-on-year and segment margins grew significantly and were 3.4x of Financial Year 2022-23. The sales growth was led by in-house portfolio comprising of HITWEED range of herbicides coupled with in-licensed insecticides, GRACIA, which was launched in February 2022. Herbicides portfolio registered robust volumes in Financial Year 2023-24 while GRACIA continued to deliver strong volume growth. The spectacular results were achieved by having a single-minded focus on creating "Customer Delight". This involved end-to-end integration of on-field / demand generation activities, supply chain efficiencies and deep understanding of the needs of the end consumer. CPB team also achieved a substantial improvement in the working capital cycle and collections driven by concerted efforts in maintaining credit hygiene.

The Company's in-house herbicide and in-licensing insecticide products have created a strong niche in the fiercely competitive Indian Agrochemical sector. Going forward, along with the existing product portfolio, your Company will also focus on new product development through in-house R&D initiatives and in-licensing collaborations with innovators / large global players.

Your Company's subsidiary, Astec LifeSciences Limited, faced volume headwinds and price corrections in both exports as well as domestic markets. In the export markets, a number of active ingredients and intermediaries witnessed drop in volumes during the year on account of several factors such as high inventories, de-stocking strategies and demand-supply imbalance. As a result, Astec reported decline in revenues and losses in Financial Year 2023-24 as compared to the previous year. Nonetheless, Astec's performance in contract manufacturing (CMO) and new products segment was in line with the expectations with 67% growth in revenues as compared to the previous year.

The Company's investment in a new state-of-the-art Research & Development centre, named "Adi Godrej Centre for Chemical Research and Development" in Rabale, Maharashtra has started showing results with new products being commercialised in Financial Year 2023-24.

In the next Financial Year, Astec LifeSciences will continue to focus on scaling up R&D projects, diversification into other molecules as well as chemistries and expanding its customer base for contract manufacturing business. In addition to R&D facility, Astec has also initiated expansion of herbicides plant at existing Mahad facility during the year. With steadfast focus on R&D, business diversification and future-ready investments, Astec's management team remains committed to long-term strategic growth.

OIL PALM

Oil Palm Business

Your Company is the largest oil palm processor in India and works directly with more than 11,000 farmers for the entire lifecycle of the crop.

During the Financial Year 2023-24, your Company completed the forward integration and margin expansion in Palm Oil value chain. Refinery with a capacity of 400 metric ton per day and Solvent extraction plant with a capacity of 200 metric ton per day were commissioned in Q1 2023-24.

Financial Years 2021-22 and 2022-23 had witnessed prices at record high levels for both Crude Palm Oil (CPO) and Palm Kernel Oil (PKO) primarily due to supply chain disruptions caused by Covid-19 fallout and geopolitical conflicts in the form of Russia-Ukraine war. With the gradual return of normalcy, the average realisations of end-products also returned to usual levels but were significantly lower as compared to Financial Year 2022-23. CPO & PKO prices were lower by 20% and 28% respectively over previous year. Consequently, the segment revenues and margins were lower.

GAVL continued to work aggressively on area expansion in the newly allocated areas in states of Assam, Manipur, Tripura, Nagaland, Orissa and Telangana. Your Company also signed multiple Memorandum of Understanding (MOUs) and received allocations from various state Governments – namely Telangana, Andhra Pradesh and Odisha during the year. With these newer opportunities, GAVL is working towards the goal to add 60,000 hectares of additional oil palm plantations over the course of the next five years to support the long-term sustainable development of oil palm in India. Similarly, to achieve this goal, GAVL launched a unique initiative called “Samadhan” centres, a one stop solution centre which would provide a comprehensive package of knowledge, tools, services and solutions to oil palm farmers. Your Company aims to establish Samadhan centre as a critical enabler in Indian Palm Oil industry and assist oil palm farmers in optimising their yields by adopting latest agricultural techniques and boosting their productivity. As a part of the Samadhan initiative, GAVL plans to establish 50 Samadhan centers across the India by 2027 with each center supporting ~2,000 hectares of area under oil palm. It will also help to support farmers to avail developmental finance, government subsidies/schemes and other benefits. GAVL has operationalised 8 new centres in Andhra Pradesh & Telangana in Financial Year 2023-24. With this the total count of Samadhan centres is 13 across key states of Andhra Pradesh & Telangana.

GAVL continued to make significant progress in several digital initiatives as well as ESG targets. To ensure traceability and transparency, GAVL has developed a web-based portal & an app 'Farmer Management System' for farmers and agents. The same is being fully revamped to provide improved service levels to all key stakeholders. We have also made satisfactory progress on our ESG goals for Oil Palm business and it continues to generate entire energy requirements inhouse, achieving net zero carbon emissions.

DAIRY

Dairy Business

Financial Year 2023-24 was a year of structural turnaround for our dairy business. Our dairy subsidiary, Creamline Dairy Products Limited ("CDPL"), reported a profit for Financial Year 2023-24 and has charted a path to sustained margin expansion. This was possible due to the significant improvement in operational efficiencies across all key areas of business i.e. milk procurement, supply chain & logistics, sales & marketing, etc. This led to a significant expansion in gross margin across all categories i.e. liquid milk and value added products.

Growth in VAP portfolio was led by market share gains in some of the key markets, primarily in curd, buttermilk and milk-based flavoured drinks. Share of VAP in total sales increased to 36% in Financial Year 2023-24 from 32% in Financial Year 2022-23.

In the medium term, CDPL will be focussing on two key levers for achieving a sustainable growth in profitability – (a) Volume growth led by VAP portfolio, and (2) Margin expansion through Procurement & Supply Chain Efficiencies. While liquid milk volumes will continue to grow at a steady pace, rapid expansion of VAP portfolio would be a key priority in the coming year. This will be supplemented by strengthening the direct milk procurement network and improving operating leverage. Your Company remains fully focused on improving the profitability of CDPL.

POULTRY & PROCESSED FOOD

Poultry and Processed Food Business

Godrej Tyson Foods Limited (“GTFL”) continued to build on improving & sustaining operational efficiencies and delivered excellent improvement in profitability. The profitability for the year improved significantly over Financial Year 2022-23 and was 2.8x of Financial Year 2022-23 segment margin, while topline remained flat. This was a result of robust volume performance in branded categories coupled with recovery in live bird prices.

Amongst branded categories, Real Good Chicken (RGC) continued to register a volume growth of 16% for the second straight year on the back of QSR and Institutional sales.

On operational front, the live bird business continued to sustain healthy improvement in key performance metrics such as feed conversion ratio, hatchability success rate etc. Improved realisations in current financial year resulted in significant improvement in profitability.

GTFL would continue to focus on rapidly increasing the proportion of branded categories in the overall revenue mix to improve margin stability in the long term. In RGC, the emphasis would be on brand building and accelerating e-commerce channel for enhancing retail presence. In Yummiez segment, GTFL’s aim is to scale up volume growth through expanding product portfolio and by adding new sales channels for increasing the distribution reach.

Opportunities, Strengths, Concerns

Opportunities and Strengths

- **Increase market share in existing business verticals:** Several sectors in which your Company operates are largely unorganized, therefore, cost leadership is a key enabler for your Company to increase the market share of its products in those segments. The Company’s ability to increase sales will be strengthened by continued focus on offering a wide range of innovative products across all business verticals which will help in gaining market share. Additionally, in the medium-term, due to supply chain disruption and lack of liquidity leading to the closure of smaller business units, larger players with strong balance sheets will gain market share.

- **Pan-India presence with extensive supply and distribution network to benefit the Company in the long-run:** Your Company has a pan-India presence and operations spanning across 5 (five) business verticals. The Company has set up processing facilities and supporting infrastructure as well as R&D to develop a modern operating platform across key agriculture verticals. As a result of its widespread network and significant operational experience, the Company is well placed to identify key market trends and introduce a range of innovative and value-added products in the market to cater to the evolving needs of the customers. The nationwide footprint also allows the Company to leverage the competitive advantages of each location to enhance competitiveness and reduce geographic and political risks in businesses.
- **Diversified businesses with synergies in operations:** Segmental and geographical diversification across business verticals provide a hedge against the risks associated with any particular industry segment or geography while benefiting from the synergies of operating in diverse but related businesses. Synergies across diverse businesses provide the ability to drive growth, optimize capital efficiency and maintain competitive advantage. The Company also derives operational efficiencies by centralizing and sharing certain key functions across businesses such as finance, legal, information technology, strategy, procurement and human resources.
- **Strong Research & Development (R&D) Capabilities:** The Company's emphasis on R&D has been critical to its success and a differentiating factor from competitors. Dedicated R&D is undertaken in existing products primarily with a focus to improve yields and process efficiencies. The Company also focuses on R&D efforts in areas where there is significant growth potential. Through our subsidiary Astec LifeSciences Limited, your Company has access to strong R&D capabilities in the agrochemical active ingredients category. Investment is also being made in developing innovative technologies to further grow our product portfolio across businesses.
- **Focus on inorganically growing business offerings:** Your Company will evaluate inorganic growth opportunities, in keeping with the strategy to grow and develop market share or to add new product categories. Your Company may consider opportunities for inorganic growth, such as through mergers and acquisitions, if, amongst other things, they consolidate market position in existing business verticals or achieve operating leverage in key markets by unlocking potential efficiency and synergy benefits. Your Company can also look at opportunities that will strengthen and expand its product portfolio and increase its sales and distribution network.

Threats, Risk & Concerns

- **Unfavourable local and global weather patterns can have an adverse effect on the business:** As an agri-based Company, the businesses are sensitive to weather conditions, including extremes such as drought and natural disasters. The availability of raw materials required for operations and the demand for products may be adversely affected by longer than usual periods of heavy rainfall in certain regions or a drought in India. The occurrence of any unfavourable weather patterns may adversely affect business, results of operations and financial condition.
- **Availability of raw materials and arrangements with suppliers for raw materials:** Each of the businesses depends on the availability of reasonably priced, high-quality raw materials in the quantities required by operations. The price and availability of such raw materials depend on several factors beyond the Company's control, including overall economic conditions, production levels, market demand and competition for such materials, production and transportation cost, duties and taxes and trade restrictions. The Company typically sources raw materials from third-party suppliers or the open market which exposes the Company to volatility in the prices of raw materials and dependence on third-party for delivery of raw material. Also, any inability to procure raw materials from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect operations.

- Improper handling, processing or storage of raw materials or products:** The products that your Company manufactures or processes are subject to risks such as contamination, adulteration and product tampering during their manufacturing, transport or storage. Inherent business risks exist in form of product liability or recall claims if products fail to meet the required quality standards or are alleged to result in harm to customers. Such risks may be controlled, but not eliminated, by adherence to good manufacturing practices and finished product testing. Although the Company has product liability insurance cover for domestic and international markets for businesses, it cannot assure that this insurance coverage is adequate or that any losses will be adequately compensated by the insurers in the event of a product liability claim.
- Seasonal variations in the businesses:** Your Company's businesses are subject to seasonal variations that could result in fluctuations in performance. For example, in the animal feed business, the Company sells lower volumes of cattle feed during the monsoons due to the availability of green fodder. In the poultry and processed foods business, the demand for poultry products is higher in the second half of the Financial Year since the consumption of poultry meat and eggs is higher during winter months, while the sale of such products is lower during certain religious festivals. As a result of such seasonal fluctuations, sales and results of operations may vary by fiscal quarter. The sales and results of operations of any given fiscal quarter may not be relied upon as indicators of the sales or results of operations of other fiscal quarters or future performance. In addition, financial performance is also impacted by other risks such as inability to manage diversified operations, dependency of revenue from animal feed business and dependency of the utilization of services of third parties for our operations.

Unclaimed / Unpaid Dividend:

Shareholders who have not encashed the dividend warrants for the previous year(s), are requested to make their claim with KFin Technologies Limited (formerly known as Kfin Technologies Private Limited) (“**RTA**”), Registrar and Share Transfer Agent of the Company,

at Selenium Tower B, Plot No. 31 & 32, Financial District, Nanakramguda, Hyderabad – 500032, Telangana, India. The Company has also uploaded the details of Unclaimed dividend amount(s) lying with the Company as on date of Annual General Meeting on the website of the Company i.e., www.godrejagrovet.com.

16. Shareholders may note that the Income Tax Act, 1961, as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a Company after April 1, 2020 shall be taxable in the hands of the Shareholders. The Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the final dividend, if declared by the Shareholders. In order to enable the Company to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with the provisions of the Income Tax Act, 1961.

a) For **Resident Shareholders**, TDS shall be deducted under Section 194 of the Income Tax Act, 1961, at rate in force on the amount of Dividend declared and paid by the Company during Financial Year 2024-25, provided Permanent Account Number (PAN) is registered by the Shareholder. If PAN is not registered or if they are specified person (non-filers) as per Section 206AB of the Income Tax Act, 1961, TDS would be deducted at a higher rate as per the provisions of the Income Tax Act, 1961 and/or the Rules framed thereunder. However, no tax shall be deducted on the Dividend payable to a resident individual if the total dividend to be received by such resident individual during the Financial Year 2024-25 does not exceed ₹5,000/-. Please note that this includes future dividends, if any, which may be declared by the Company during the Financial Year 2024-25.

Separately, in cases where a Shareholder provides Form 15G (applicable to any resident person other than a company or a firm) / Form 15H (applicable to a resident individual above the age of 60 years), provided that the eligibility conditions are being met, no TDS shall be deducted.

b) For **Mutual Fund Shareholders**, TDS is exempt under Section 10(23D), provided Mutual Funds provide SEBI Registration / Central Board of Direct Taxes (CBDT) notification and declaration that their income is exempt under Section 10 (23D) of the Income Tax Act, 1961.

c) For **Foreign Institutional Investors (FII) / Foreign Portfolio Investors (FPI)**, tax will be deducted under Section 196D of the Income Tax Act, 1961, at applicable rate, including surcharge and cess.

d) For **Other Non-resident Shareholders**, taxes are required to be withheld in accordance with the provisions of Section 195 of the Income Tax Act, 1961 at the rates in force. However, as per Section 90 of the Income Tax Act, 1961, the Non-Resident Shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the Shareholder, if they are more beneficial to them. For this purpose, i.e., to avail the Tax Treaty benefits, the Non- Resident Shareholder will have to provide the following:

- Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is resident.
- Self-declaration in Form 10F if all the details required in this form are not mentioned in the TRC.
- Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities.
- Self-declaration, certifying the following points:
 - i. Member is and will continue to remain a tax resident of the country of its residence during the financial year 2024-25;
 - ii. Member is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;
 - iii. Member has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;
 - iv. Member is the ultimate beneficial owner of its shareholding in the Company and Dividend receivable from the Company; and
 - v. Member does not have a taxable presence or a permanent establishment in India during the financial year 2024-25.

Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non-Resident Shareholder.

Kindly note that the aforementioned documents are required to be submitted by 11.59 p.m. (IST) on **Monday, July 29, 2024** to the Company at gavlinvestors@godrejagrovet.com / gavl.secretarial@godrejagrovet.com and to Kfintech at web-link (<https://ris.kfintech.com/form15>), in order to enable the Company to determine and deduct appropriate TDS / withholding tax rate. No communication on the tax determination / deduction received post **Monday, July 29, 2024** will be considered for payment of Final Dividend. No claim shall lie against the Company for such taxes deduction(s). In case of any queries / difficulties, Shareholders may write to Kfintech at inward.ris@kfintech.com / gavlinvestors@godrejagrovet.com / gavl.secretarial@godrejagrovet.com. Shareholders are also requested to note that in case their PAN is not registered, the tax will be deducted at a higher rate.

It may be further noted that in case the tax on said dividend is deducted at a higher rate in absence of receipt of the aforementioned details / documents from a Shareholder, there would still be an option available with such Shareholder to file the return of income and claim an appropriate refund, if eligible.

The Company will arrange to send the soft copy of TDS certificate to a Shareholder on its registered email ID or make such functionality available on its website in due course, post payment of the said Dividend. Shareholders will also be able to see the credit of TDS in Form 26AS, which can be downloaded from their e-filing account at <https://eportal.incometax.gov.in/iec/foervices/#/login>.

17. Shareholders holding the shares in electronic mode may please note that their Dividend would be paid through National Electronic Clearing System (NECS) or Electronic Clearing Services (ECS) at the available locations of the Reserve Bank of India (RBI) or National Electronic Fund Transfer (NEFT) or Real Time Gross Settlement (RTGS). The Dividend would be credited to their Bank account as per the mandate given by the Shareholders to their Depository Participant(s). In the absence of availability of NECS / ECS / NEFT / RTGS facility, the Dividend would be paid through demand drafts / dividend warrants and the Bank details as furnished by the respective Depositories to the Company. The same will be printed on their demand drafts / dividend warrants as per the applicable regulations. For Shareholders who have not updated their Bank account details, dividend warrants / demand drafts will be sent to their registered addresses.

2. REVIEW OF OPERATIONS / STATE OF AFFAIRS OF THE COMPANY, ITS SUBSIDIARIES & JOINT VENTURES & OTHER ASSOCIATES:

Review of Operations / State of Affairs of the Company:

There has been no change in the nature of business of your Company during the Financial Year 2023-24.

The business-wise performance of your Company is discussed in detail as follows:

Businesses of the Company:

Animal Feed:

During the Financial Year 2023-24, the profitability of Animal Feed segment improved considerably by 31.3% over Financial Year 2022-23 on account of higher volumes and realisations in cattle feed category and softened commodity prices. Cattle feed segment continued to record robust volume growth of 11% year-on-year through portfolio of new products launched over the last few years. Fish feed category also delivered strong volume growth of 19% year-on-year.

Crop Protection:

Standalone Crop Protection business delivered a stellar performance during the year and segment profitability improved sharply and was 3.4x of Financial Year 2022-23. Segment revenue also improved significantly and was higher by 37% year-on-year. Sales growth and improvement in margin profile was led by in-house and in-licensed product portfolio. The segment achieved substantial improvement in working capital position with continued focus on channel hygiene during the year.

Vegetable Oil:

Segment revenues and margins were adversely impacted by lower end-product prices. Average prices for crude palm oil and palm kernel oil fell by 19% and 27% respectively year-on-year which constrained growth in revenue and profitability. While revenue was lower by 6% year-on-year, segment margins were lower by 30% over high base of Financial Year 2022-23.

ANNEXURE - A

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2024

1. Brief Outline on CSR Policy of the Company:

Godrej Agrovet Limited ("GAVL") is committed to the Godrej Group's 'Good & Green' vision of creating a more inclusive and greener India. The Company's strategic Corporate Social Responsibility (CSR) projects, undertaken as part of its overall sustainability framework, actively work towards the Godrej Group's 'Good & Green' goals and have helped us carve out a reputation for being one of the most committed and responsible companies in the industry.

The Company endeavours to address critical social, environmental and economic needs of marginalised and underprivileged sections of our communities, by adopting a shared value approach, i.e., to help solve problems, while strengthening its competitive advantage. In order to pursue these objectives, the Company, as a responsible corporate citizen, constantly endeavours to:

- Promote the principles of inclusive growth and equitable development;
- Formulate and implement project plans based on identification and thorough understanding of the needs and priorities of different communities surrounding its areas of operations, either directly or through appropriately selected implementing partners and measure their effectiveness in a timely manner;
- Focus on few important areas for conducting CSR activities such as employability, livelihoods and income generation, women empowerment, good agricultural practices, rural development projects, medical aid, conservation of natural resources, disaster relief management, etc.;
- Interact with all the stakeholders on an ongoing basis, regarding the effectiveness of CSR initiatives and the ways and means to enhance the same.

CORPORATE GOVERNANCE REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2024

In accordance with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“**the Listing Regulations**”), the Board of Directors of Godrej Agrovet Limited (“**the Company**” / “**GAVL**”) have pleasure in presenting the Company’s Report on Corporate Governance for the Financial Year ended March 31, 2024.

1. Company’s Philosophy on Code of Corporate Governance:

The Securities and Exchange Board of India (“**SEBI**”) has introduced a Code of Corporate Governance for a Listed Company, which is implemented through the Listing Regulations, over and above the provisions of the Companies Act, 2013 (“**the Act**”) and the Rules framed thereunder, which are required to be complied by every such company.

We, at GAVL, firmly believe that Corporate Governance is a set of systems and practices to ensure that the affairs of a Company are being managed in a manner which ensures accountability, transparency and fairness in all its transactions in the widest sense and meet the aspirations and expectations of the stakeholders and the society as a whole. Corporate Governance refers to the framework of rules and practices by which the Company ensures ethical conduct which is in harmony with the interests of all its, stakeholders. Corporate Governance requires professionals to constantly enhance or upgrade their knowledge, competencies and capabilities, in order to modify systems and processes which help in managing the enterprise and its resources effectively, with the highest standards of ethics.

Effective Corporate Governance practices and strong foundation of Godrej values have been GAVL’s hallmark. The Company is a part of the more than a century-old Godrej Group which has an established reputation of honesty, integrity and sound governance since inception. Your Company is, therefore, committed to maintaining the highest standards of Corporate Governance in its conduct towards Shareholders, employees, regulators, customers, suppliers, lenders and other stakeholders. Your Company believes that Corporate Governance is a journey which leads to corporate growth and long-term gain in Shareholders’ value.

Your Company is in compliance with the requirements of Corporate Governance as prescribed under the Listing Regulations.

2. Board of Directors:

a. Board Structure:

Your Company has an active, well experienced and a well-informed Board with an optimum combination of 13 (Thirteen) Directors comprising of 11 (Eleven) Non-Executive Directors [out of which 4 (Four) are Non-Independent Directors and 7 (Seven) are Independent Directors] and 2 (Two) Executive Directors as on March 31, 2024. The composition of the Board is in conformity with Regulation 17 of the Listing Regulations read with Section 149 of the Act.

Your Company has 6 (Six) Women Directors out of which 4 (Four) are Independent Directors. More than half of the Board comprises of Independent Directors. The Board is headed by Mr. Nadir B. Godrej, Chairman (Non-Executive and Non-Independent Director), who is not related to Managing Director of the Company as per the definition of “Relative” provided under the Act and is the father of Mr. Burjis N. Godrej, Executive Director of the Company. The detailed profiles of the Directors are available on the Company’s website at <https://www.godrejagrovet.com/know-us/board-of-directors>.

The Company has a right mix of Directors on the Board who possessed the requisite qualifications, competence, expertise, professionalism and practical knowledge in General Management, Finance, Human Resources, Compliances, Legal, Corporate Social Activities, Research and other allied activities connected to the areas of operation of the Company which enables the Board to function effectively.

The Board provides and evaluates the Company’s strategic decisions, management policies and their effectiveness, which shapes the Corporate Governance practices of the Company and ensures that the long-term interests of the Shareholders are being served. Mr. Balam S. Yadav, Managing Director and Mr. Burjis Godrej, Executive Director, are assisted by Senior Managerial Personnel in overseeing the functional matters of the Company.

The composition of the Board of Directors as on March 31, 2024 is summarized below:

Particulars	Chairman (Non-Executive)	Executive Director	Non-Executive Directors		Total
			Non-Independent	Independent	
Number of Directors	1	2	3	7	13
			(Of which 2 are Women Directors)	(Of which 4 are Women Directors)	

b. Board Training and Induction:

At the time of appointing a Director, a formal Letter of Appointment is issued to him / her, which, *inter alia*, explains the role, functions, duties and responsibilities of a Director of the Company. The Director is briefed about the business and performance of the Company as well. The Director is also explained in detail of the compliances required from him / her under the Companies Act, 2013 and the Listing Regulations and other relevant Regulations and his / her affirmation is taken with respect to the same.

c. Familiarization Programmes for Independent Directors:

All the Directors, including Independent Directors, are provided with the requisite documents and reports to enable them to familiarize with the Company's performance and practices. Periodic presentations are made at the Meetings of the Board and Committees thereof or at separate meetings as well, on the business and performance of the Company. Quarterly updates on relevant statutory changes covering important applicable laws are discussed at the Meetings of the Board.

The details of familiarization programme conducted for Independent Directors have been disclosed on the Company's web-link <https://www.godrejagrovet.com/investors/compliance>.

d. Board Procedure and Meetings:

The Board of Directors, *inter alia*, focuses on and oversees Strategic Planning, Risk Management, Compliance and Corporate Governance, Financial Control, Succession Planning for Directors, etc., with high standards of ethical conduct and integrity, in order to protect the best interests of all the stakeholders, including Shareholders.

The Board of Directors meets at regular intervals to discuss and decide on business strategies / policies and reviews the financial and operational performance of the Company and its subsidiaries and associates. In case of business exigencies, the Board's approval is taken through Resolutions by way of Circulation. The Resolutions by Circulation are noted at the subsequent Board Meetings.

The Agenda for the Meetings of the Board and its Committees are circulated in advance as per the provisions of the Act and the Rules framed thereunder and Secretarial Standards – 1 ("SS-1") i.e. Secretarial Standards on Meetings of Board issued by the Institute of Company Secretaries of India (ICSI) (which prescribes a set of principles for convening and conducting Meetings of the Board of Directors and matters related thereto) and also to ensure sufficient time is provided to Directors to prepare for the Meetings.

The Board meets at least once in a Quarter to, *inter alia*, review, approve and take note of Quarterly / Half Yearly / Annual Standalone and Consolidated Financial Results of the Company (along with the Reports of the Statutory Auditors thereon, as may be applicable), Cost Audit Reports, Secretarial Audit Reports, Long Range Plan, Annual Operating Plan and budgets, capital budgets and updates thereon, various Compliance Report(s) under the applicable laws, major legal issues, regulatory developments, Minutes of the Meetings of the Board of Directors and its Committees and those of its Subsidiary Companies, Significant Transactions entered into with Related Parties by Subsidiary Companies and note compliances with other laws as applicable to the Company and the Listing Regulations. The Meetings of the Board of Directors are usually held at the Registered Office of the Company at "Godrej One", Pirojshanagar, Eastern Express Highway, Vikhroli (East), Mumbai – 400079 (Maharashtra). During the Financial Year 2023-24, the Company had provided Video Conferencing (VC) facility to its Directors to enable their participation in all the Meetings of Board and its Committees, so that they can contribute in the discussions at the Meetings.

The Board of Directors is provided access to all the Company-related information, including but not limited to, information mentioned under Regulation 17 read with Part A of Schedule II to the Listing Regulations.

In the path of digitization and with a view to ensure its commitment to "Go-Green" Initiative of the Ministry of Corporate Affairs, Government of India and the "Good & Green" policy of the Godrej Group, the Company has started circulating to its Directors, Notices, Agenda and other relevant notes and documents for the Meetings of the Board and Committees thereof through an electronic platform, thereby ensuring seamless access, high standards of security and confidentiality of Board and its Committee Meetings related documents.

The Company Secretary attends all the Meetings of the Board and its Committees and is, *inter alia*, responsible for recording the Minutes of such Meetings. The draft Minutes of the Meetings of the Board of Directors and its Committees are sent to the Members for their comments in accordance with the Secretarial Standards – 1 and then, the Minutes are entered in the Minutes Book within 30 (Thirty) days from the conclusion of the respective Meetings, subsequent to incorporation of comments, if any, received from the Directors. The Company adheres to the provisions of the Companies Act, 2013 read with the Rules framed thereunder, Secretarial Standards and Listing Regulations with respect to convening and holding the Meetings of the Board of Directors and its Committees.

During the Financial Year 2023-24, 4 (Four) Board Meetings were held, i.e., on May 9, 2023, August 1, 2023, November 3, 2023 and February 1, 2024 and the maximum interval between any 2 (Two) consecutive Board Meetings was well within the maximum allowed time gap of 120 (One Hundred and Twenty) days. XI. Risk Management:

Your Company continuously monitors business and operational risks. All key functions and divisions are independently responsible to monitor risks associated within their respective areas of operations such as production, insurance, legal and other issues like health, safety, and environment. Your Company has formulated Risk Management Policy for identification of risks and has formed a Risk Management Committee to ensure implementation of the Policy.

Risk Management Policy is also made available on the website of your Company at the weblink: <https://www.godrejagrovet.com/sustainability/codes-and-policies>. The Board of Directors of your Company is of the opinion that, at present, there are no elements of risks which may threaten the existence of your Company.

The Risk Management Committee met 2 (Two) times during the Financial Year 2023-24 (i.e., on July 21, 2023 and January 16, 2024), to ensure that appropriate methodologies, processes and systems are in place to monitor and evaluate risks associated with the business of the Company and also to monitor and oversee the implementation of the Risk Management Policy.

The Board of Directors of your Company is of the opinion that, at present, there are no elements of risks which may threaten the existence of your Company.

XII. Commodity Price Risk or Foreign Exchange Risk and Hedging Activities:

Risk Management Policy of the Company with respect to commodities including through hedging & Commodity Risks faced by the Company during the year and management thereof.

The Company is exposed to commodity risks on a routine basis due to multiple commodities (imported or domestically procured) utilized in its manufacturing operations. Such risks are managed by tracking the commodity prices on a daily basis taking physical position of commodity as well as entering into fixed price contracts with the domestic and overseas suppliers in order to hedge price volatility, as per the Risk Management Policy of the Company which is available on the Company's website at <https://www.godrejagrovet.com/sustainability/codes-and-policies>.

Commodity Price Risk:

The Company is an Agri Company manufacturing agri products. Hence, volatility in raw material input prices poses risk for the business.

Currency Risk:

The functional currency of Company is primarily the local currency in which it operates. The currencies in which the transactions are primarily denominated are in Indian Rupees (INR). The Company is exposed to currency risk in respect of transactions in foreign currency. Foreign currency revenues and expense are in the nature of export sales and import purchases. The Company's Risk Management Policy requires to hedge its foreign currency exposure in accordance with the exposure limits advised from time to time. The Company uses forward exchange contracts to hedge its currency risk. Such contracts are generally designated as cash flow hedges.

The forward exchange contracts are denominated in the same currency as the highly probable future transaction value; therefore, the hedge ratio is 1:1. Most of these contracts have a maturity of 18 (eighteen) months from the reporting date. The Company's policy is for the critical terms of the forward exchange contracts to align with the hedged item.

The Company determines the existence of an economic relationship between the hedging instruments and hedged item based on the currency, amount and timing of their respective cash flows.

The Company assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting the changes in the cash flows of the hedged item using the hypothetical derivative method.

In these hedge relationships, changes in timing of the hedged transactions are the main source of hedge ineffectiveness.

Governance, Leadership & Oversight:

7. Statement by Director responsible for the BRSR, highlighting ESG related Challenges, Targets and Achievements:

The Company's commitment to environmental issues and community development has always been meaningful and long-term, with a deep purpose. Its sustainability targets are guided by the Godrej Group's Good & Green vision of creating a more inclusive and greener world.

The Company has made meaningful progress towards achieving its sustainability objectives by 2026. 77% of the Company's energy consumption during the Financial Year 2023-24 was from clean, renewable energy sources as against a target of 90% by 2026. Solar roof top or ground mounted systems were installed at more than 20 manufacturing plants. The Company is a 20x water positive company having sequestered around 37 million cubic metre of water during the year. Towards achieving Carbon Neutrality by 2035, the Company has sequestered 29,750 MT of CO₂ in FY 2023-24 which accounts for 28% of its annual CO₂ emission target. The Company has reduced its specific Green House Gas (GHG) emission by 22% from its baseline year of FY 2019-20, against the target of 30% by 2026.

We are committed to reduce our Green House Gas (GHG) emissions in line with Science Based Target's (SBTi) "Well Below 2°C" scenario. In doing so, the Company became the first Agri company in India to commit to reduction in Scope 1 & Scope 2 GHG emissions by 37.5% and Scope 3 emissions by 16.0% by 2035. The Company first time made into Carbon Disclosure Project's (CDP) ranking into leadership band "A-" for its Climate disclosure, and for Forest and Water disclosure "B" remained well ahead of the food sector, as well as the Asian and Global averages score of "C".

On the Corporate Social Responsibility (CSR) front, the Company's livelihood and entitlement enablement initiatives continue to focus on sustainable economic development of vulnerable and low-income sections of the society. Under its CSR activities, the Company worked on projects in the area of agriculture, education, entitlements and community development. The various CSR programmes of the Company have positively impacted livelihoods for more than 4,000 households and 15,700 students.

CAPEX	14.6%	17.7%	Solar projects across multiple manufacturing locations and rain water harvesting

2. a. Does the Entity have Procedures in place for Sustainable Sourcing? (Yes / No)

b. If yes, what Percentage of Inputs were sourced sustainably?

From sourcing of raw materials to the manufacturing technologies that the Company uses at its plants, the Company has been integrating sustainability into the very core of its business processes and value chain. The Company is also looking for ways to extend its sustainability efforts beyond its manufacturing plants to impact the entire life cycle of its products.

The Company has different sourcing procedures for its three key businesses – Animal Feed, Crop Protection and Vegetable Oils.

The Company's Animal Feed business has pan-India manufacturing presence and farmers remain a core constituent of the Company's sourcing of the input agri-commodities for feed business. The Company directly procures majority of its grains input from farmers / mandis located near manufacturing locations and processed commodities other than grains are procured from processors.

In Crop Protection business, the Company has internal process for selection of suppliers and third parties which includes various parameters such as legal compliance, ISO certification, Environment Health & Safety practices, etc.

In Vegetable Oils business, the Company procures Fresh Fruit Bunches from farmers across Government-allocated districts which account for more than 90% of its input costs. The Company has always strived towards educating farmers on sustainable palm oil cultivation practices on a continuous basis and its extension teams are working closely with the farmers. The Company possesses a verification certification under the Indian Palm Oil Sustainability (IPOS) Framework, issued by an independent international certification body, in recognition of the sustainable practices adopted. This certification is a result of the Company's commitment to supporting farmers to enhance their farm management skills that lead to improved productivity.

INDEPENDENT AUDITOR'S REPORT

To the Members of Godrej Agrovet Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Godrej Agrovet Limited (the "Company") which comprise the standalone balance sheet as at 31 March 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matters

Revenue Recognition	
The key audit matter	How the matter was addressed in our audit
<p>Refer Note 1 [7(A)(i)] of accounting policy and Note 29 and Note 30 in standalone financial statements</p> <p>The Company recognises revenue from sale of goods when control of the goods has transferred and when there are no longer any unfulfilled obligations to the customer. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods.</p> <p>The Company has large number of customers and the sales contracts with customers have different terms relating to transfer of control of underlying goods and the right of return.</p> <p>We identified the recognition of revenue from sale of products as a key audit matter because:</p> <ul style="list-style-type: none"> The Company and its external stakeholders focus on revenue as a key performance indicator. This could create an incentive for higher revenue to be recognised throughout the period (including period end), i.e., before the control of underlying goods have been transferred to the customer; and Estimation of accrual for sales returns, particularly in the crop protection segment involves significant judgement. 	<p>Our audit procedures included following:</p> <ul style="list-style-type: none"> Assessing the Company's accounting policies in respect of revenue recognition by comparing with applicable accounting standards; Evaluating the design, testing the implementation and operating effectiveness of the Company's internal controls over recognition of revenue on selected samples of transactions; Perform substantive testing and cut-off testing throughout the period (including period end), by selecting samples using statistical sampling of revenue transactions recorded during and after the year and verifying the underlying documents, which included sales invoices, dispatch documents and proof of delivery, depending on the terms of contracts with customer; Examining journal entries (using statistical sampling) posted to revenue to identify unusual or irregular items; Evaluating the design and testing the implementation and operating effectiveness of the internal controls over accrual for sales returns, in crop protection segment; Checking completeness and accuracy of the data used for accrual of sales returns, in crop protection segment by verifying the historical data with underlying books of accounts;

Revenue Recognition	
The key audit matter	How the matter was addressed in our audit
	<ul style="list-style-type: none"> Examining historical trend of sales return claims to assess the assumptions and judgements used in accrual of sales returns in crop protection segment. Comparing historically recorded accruals to the actual amount of sales returns; Evaluating adequacy of disclosures given in the standalone financial statements.

Investments

See note 7 [a] to the standalone financial statements

The key audit matter	How the matter was addressed in our audit
<p>The assessment of recoverable value of investment in certain subsidiaries involves significant judgement.</p> <p>Management performs an annual impairment testing for these investments or more frequently if events or changes in circumstances indicate that they might be impaired.</p> <p>The carrying value of these investment in subsidiaries is tested for impairment using a value in use model. We consider the impairment evaluation of investments in subsidiaries by management to involve significant estimates and judgement, due to the inherent uncertainty involved in forecasting and discounting future cash flows.</p> <p>Accordingly, this is considered as a key audit matter.</p>	<p>Our audit procedures include the following:</p> <ul style="list-style-type: none"> Assessing the Company's accounting policy for impairment of investments in subsidiaries with applicable accounting standards; Testing the design, implementation and operating effectiveness of key controls placed around the impairment assessment process of investment in subsidiaries; Obtaining and assessing the valuation working prepared by the management for its impairment assessment; Involving valuation specialists to assist in the evaluation of key assumptions such as discount rate, growth rate etc. in estimating projections, cash flows and methodologies used by the Company; Comparing the current year's performance with the projections used in previous year; Assessing the sensitivity of the outcome of impairment assessment to changes in key assumptions; and Comparing the carrying values of the Company's investment in subsidiaries with their respective value in use and assessed the need for impairment (if any).

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of Godrej Agrovet Limited for the year ended 31 March 2024

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company, except for the following which are not held in the name of the Company:

Description of property	Gross carrying value (₹ in Crores)	Held in the name of	Whether promoter, director or their relative or employee	Period held- indicate range, where appropriate	Reason for not being held in the name of the Company. Also indicate if in dispute
Freehold land	0.04	Cauvery Palm Oil Limited	No	10-12 years	Received on merger of the erstwhile Companies. The Company is in the process of transferring the title and is pending for update in revenue records.
Leasehold land	12.05	Gujarat Industrial Development Corporation (GIDC)	No	8-10 years	Company has received the allotment letter / restoration order from GIDC and Company is in the process of fulfilling the terms for registration.
Factory Building	1.57	Cauvery Palm Oil Limited	No	10-12 years	Received on merger of the erstwhile Companies. The Company is in the process of transferring the title and is pending for update in revenue records.
Office Building	0.61	Cauvery Palm Oil Limited	No	10-12 years	Received on merger of the erstwhile Companies. The Company is in the process of transferring the title and is pending for update in revenue records.

- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit, has been physically verified by the management during the year. For goods-in-transit, subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory

- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has made investments in companies and granted loans or interest free advance in the nature of loans to companies, in respect of which the requisite information is provided as below. The Company has not provided any guarantee or security to companies, firms, limited liability partnership or any other parties during the year. The Company has not made any investments in firms, limited liability partnership or any other parties and has not granted any loans or advances in the nature of loans, secured or unsecured to firms, limited liability partnership during the year.
- (a) Based on the audit procedures carried on by us and as per the information and explanations given to us the Company has provided loans or provided advances in the nature of loans as below:

Particulars	Loans (₹ in crores)
Aggregate amount during the year	
Subsidiaries*	88.50
Others	12.00
Balance outstanding as at balance sheet date	
Subsidiaries*	102.89
Others	77.21

*As per the Companies Act, 2013

- (b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the investments made during the year and the terms and conditions of the grant of loans during the year are, prima facie, not prejudicial to the interest of the Company.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given or advance in the nature of loans, in our opinion, the repayment or receipt wherever applicable, have been regular except for the following cases where there is no stipulation of schedule of repayment of principal and payment of interest and accordingly we are unable to comment on the regularity of repayment of principal and payment of interest:

Name of the entity	Amount (₹ in crores)	Remarks
Godvet Agrochem Limited	0.62	Loan is repayable on demand. As informed to us, the Company has not demanded repayment of the loan during the year. Thus, there has been no default on the loan amount.

- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given or advance in the nature of loans.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.
- (f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment except for the following loans to its related parties as defined in Clause (76) of Section 2 of the Companies Act, 2013 ("the Act"):

Particulars	All Parties (₹ in crores)	Promoters (₹ in crores)	Related Parties (₹ in crores)
Aggregate of loans			
- Repayable on demand (A)	38.50	-	38.50
- Agreement does not specify any terms or period of Repayment (B)	-	-	-
Total (A+B)	38.50	-	38.50
Percentage of loans to the total loans	38.31%	-	38.31%

- (iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, in respect of investments made and loans, guarantees and security given by the Company, in our opinion the provisions of Section 185 and 186 of the Companies Act, 2013 ("the Act") have been complied with.
- (v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

Annexure B to the Independent Auditor's Report on the standalone financial statements of Godrej Agrovet Limited for the year ended 31 March 2024

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Godrej Agrovet Limited ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes forming part of the Standalone Financial Statements

Note 1 : Material Accounting Policies

1. General information

Godrej Agrovet Limited. ("the Company") is a public limited company, which is domiciled and incorporated in the Republic of India with its registered office situated at 3rd Floor, Godrej One, Pirojshanagar, Vikhroli (East), Mumbai – 400 079. The Company, an erstwhile division of Godrej Soaps Limited was incorporated under the Companies Act, 1956 on November 25, 1991. The Company is a diversified agribusiness company and its principal activities include manufacturing and marketing of high quality animal feed, innovative agricultural inputs and palm oil & allied products. The Company is a public company limited by shares and is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE).

2. Basis of preparation and measurement

(i) Basis of preparation

The standalone financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act. The accounting policies are applied consistently to all the years presented in the standalone financial statements.

The standalone financial statements of the Company for the year ended March 31, 2023 were authorized for issue in accordance with a resolution of the Board of Directors on May 8, 2024.

Current versus non-current classification: All assets and liabilities have been classified as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of the products and the time taken between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of the classification of assets and liabilities into current and non-current.

(ii) Basis of measurement

The standalone financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer accounting policy regarding financial instruments)
- asset held for sale and biological assets – measured at fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value less present value of defined benefit obligation; and
- share-based payments

(iii) Functional and presentation currency

These standalone financial statements are presented in Indian rupees, which is the Company's functional currency. All amounts have been rounded off to the nearest crore, unless otherwise indicated. The amount reflected as "0.00" in Financials are value with less than one lakh.

3. Key estimates and assumptions

While preparing standalone financial statements in conformity with Ind AS, the management has made certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the balance sheet date and the reported amount of income and expenses for the reporting period. Future events rarely develop exactly as forecasted and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgment, estimates and assumptions are required in particular for:

● Determination of the estimated useful lives

Useful lives of property, plant and equipment are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases where the useful lives are different from that prescribed in Schedule II and in case of intangible assets, they are estimated by management based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support - (Refer point F below).

- **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations. Due to complexities involved in the valuation and its long term nature, defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting period - (Refer note 40).

- **Recognition and measurement of Long term employee incentives**

Accrual for long term employee incentive scheme liability requires estimates and judgements in respect of achievement of parameters of business performance. These estimates are based on past performance, approved budgets and plans and other relevant information considered on a best estimate basis as at the reporting date - (Refer note 40).

- **Recognition of deferred tax assets and liabilities**

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business losses and unabsorbed depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation carry-forwards and unused tax credits could be utilized - (Refer note 44).

- **Recognition and measurement of other provisions**

- a. Provision for sales returns

The Company makes a provision for estimated sales returns, based on its historical experience and is dependent on other relevant factors - (Refer note 18).

- b. Provision for doubtful trade receivables

The Company has large number of individual small customers. Management assesses the level of allowance for doubtful debts after taking into account of ageing analysis and any other factor specific to individual counterparty and a collective estimate based on historical experience adjusted for certain current factors - (Refer note 13).

- c. The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions - (Refer note 23 and 29).

- **Discounting of long-term financial assets / liabilities**

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities /assets which are required to subsequently be measured at amortized cost, interest is accrued using the effective interest method - (Refer note 42.1).

- **Fair valuation of employee stock grants**

The fair valuation of the employee stock grants is based on the Black-Scholes model used for valuation of options. Key assumptions made with respect to expected volatility includes share price, expected dividends and discount rate, under this option pricing model - (Refer note 41).

- **Determining whether an arrangement contains a lease**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate - (Refer note 4).

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

- **Fair value of financial instruments**

Derivatives are carried at fair value. Derivatives includes foreign currency forward contracts and commodity futures. Fair value of foreign currency forward contracts are determined using the fair value reports provided by respective bankers - (Refer note 42.4).

- **Biological Assets**

Management uses inputs relating to production and market prices in determining the fair value of biological assets - (Refer note 6).

- **Impairment of investments in subsidiaries**

The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually, or more frequently when there is an indication of impairment. Management inter alia considers various inputs such as macro-economic environment, industry specific matters, financial projections and other relevant information for purposes of such assessment - (Refer note 7.1).

4. Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for, both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

5. Recent pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2024, MCA did not notify any new standards or amendments to the existing standards applicable to the Company.

6. Changes in material accounting policies:

- The Company previously accounted for deferred tax on leases and decommissioning liabilities by applying the "integrally linked" approach, resulting in a similar outcome as under the amendments, except that the deferred tax asset or liability was recognized on a net basis. Following the amendments, the Company has recognized a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right of use assets as at 1st April 2022 and thereafter. However, there was no impact on the balance sheet because the balances qualify for offset under paragraph 74 under IND AS 12. There was also no impact on the opening retained earning as at 1st April 2022 as a result of the change. The key impact for the company relates to disclosure of the deferred tax assets and liabilities recognized.

- Material accounting policy information

The company adopted Disclosure of Accounting Policies (Amendments to IND AS 1) from 1st April 2023. Although the amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity specific accounting policy information that users need to understand other information in the financial statement.

7. Material accounting policies

A. Revenue & Other income

i. Sale of goods

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. Discounts given by the Company includes trade discounts, volume rebates and other incentive given to the customers. Accumulated experience is used to estimate the provision for discounts. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.

Revenue from the sale of goods are recognized when control of the goods has transferred to our customer and when there are no longer any unfulfilled obligations to the customer. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods. This is considered the appropriate point where the performance obligations in our contracts are satisfied as the Company no longer have control over the inventory.

As at 31 March 2024, an estimate has been made of goods that will be returned and a liability has been recognized for this amount. An asset has also been recorded for the corresponding inventory that is estimated to return to the Company using a best estimate based on historical experience.

ii. Dividend income

Dividend income is recognized only when the right to receive the same is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be measured reliably.

iii. Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR), which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where appropriate, to the net carrying amount of the financial assets. Interest income is included in other income in the statement of profit or loss.

iv. Subsequent remeasurement of the contingent consideration which represents a financial liability or asset, is recognized through profit and loss account.

B. Foreign currency

i. Transactions and balances

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognized as income and expenses in the period in which they arise.

C. Employee benefits

i. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short-term employee benefits. Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Short-term benefits such as salaries, wages, short-term compensation absences, etc., are determined on an undiscounted basis and recognized in the period in which the employee renders the related service.

ii. Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund and Family pension maintained with Regional Provident Fund Office are expensed as the related service is provided.

iii. Defined benefit plans

The following post - employment benefit plans are covered under the defined benefit plans:

- Provident Fund Contributions other than those made to the Regional Provident Fund Office of the Government which are made to the Trust administered by the Company.

The Company's contribution to the Provident Fund Trust as established by the Company, is also considered as a Defined Benefit Plan. The provident fund is administered by the Trustees of the Godrej Agrovet Limited Provident Fund. The rules of the Company's Provident Fund administered by the trust, require that if the return on investment for any reason is less than the guaranteed Rate of Interest, then the deficiency shall be made good by the Company. The Company's net obligations in respect of such plans is calculated by estimating the amount of future benefit that the employees have earned in return for their services and the current and prior periods that benefit is discounted to determine its present value and the fair value of the plan asset is deducted.

- Gratuity Fund

The Company provides for gratuity, a defined benefit retirement plan covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (OCI). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

iv. Other long-term employee benefits

Liability toward Long-term Compensated Absences is provided for on the basis of an actuarial valuation, using the Projected Unit Credit Method, as at the date of the Balance Sheet. Actuarial gains / losses comprising of experience adjustments and the effects of changes in actuarial assumptions are immediately recognized in the Statement of Profit and Loss.

Other long term employee benefits include payable in respect of long term incentive scheme recorded by estimating the possible cash outflows based on assessment of parameters of the scheme and discounted at present value.

v. Terminal Benefits:

All terminal benefits are recognized as an expense in the period in which they are incurred.

D. Income Tax

Income tax expense comprises current and deferred tax. It is recognized in net profit in the statement of profit or loss or in the OCI.

i. Current tax

Current tax is the amount of tax payable (recoverable) in respect of the taxable profit (tax loss) for the year determined in accordance with the provisions of the Income-Tax Act, 1961. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if the Company:

- has a legally enforceable right to set off the recognized amounts; and
- intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

ii. Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Taxes relating to items recognized directly in equity or OCI is recognized in equity or OCI.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

E. Inventories

Inventories are carried in the balance sheet as follows:

- (a) Raw materials, Packing materials, Stock in Trade and Stores & Spares: At lower of cost, on weighted average basis and net realizable value.
- (b) Work-in-progress / project in progress-: At lower of cost of materials, plus appropriate production overheads and net realizable value.
- (c) Finished Goods: At lower of cost of materials, plus appropriate production overheads and net realizable value,

Net realizable value is the estimated selling price in the ordinary course of business less estimated cost of completion and selling expenses necessary to make the sale.

The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to the present location and condition. Slow and non-moving material, obsolescence, defective inventories are duly provided for and valued at net realizable value. Goods and materials in transit are valued at actual cost incurred upto the date of balance sheet. Materials and supplies held for use in the production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost.

F. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises:

- a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- c) the initial estimate in present value terms of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognized in the statement of profit or loss.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when there is no future economic benefits expected from its use or disposal.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the statement of profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost can be measured reliably.

iii. Depreciation/ Amortizations

Depreciation on tangible fixed assets is provided in accordance with the provisions of Schedule II of the Companies Act 2013, on Straight Line Method. Depreciation on additions / deductions is calculated on pro rata basis from/up to the month of additions/deductions. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. In case of the following category of assets, the depreciation has been provided based on the technical specifications, external & internal assessment, requirement of refurbishments and past experience of the remaining useful life which is different from the useful life as specified in Schedule II to the Act:

- (a) Plant and Machinery: - 20 Years
- (b) Computer Hardware:
Depreciated over its estimated useful life of 4 years.
- (c) Leasehold Land:
Amortized over the lease term.
- (d) Leasehold improvements and equipment:
Amortized over the Primary lease period.

Assets costing less than ₹ 5,000 are fully depreciated in the year of purchase/acquisition.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e higher of the fair value less cost to sell and value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

Borrowing costs

Other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

G. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

As per Ind AS-108 'Operating Segments', if a financial report contains both the consolidated financial statements of a parent that is within the scope of Ind AS-108 as well as the parent's separate financial statements, segment information is required only in the consolidated financial statements. Accordingly, information required to be presented under Ind AS-108 Operating Segments has been given in the consolidated financial statements.

H. Intangible assets

Recognition and measurement

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets viz. Grant of Licenses and Computer software, which are acquired by the Company and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses, if any.

Amortization

Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognized in the statement of profit or loss, except in the case of certain intangibles, as per the provisions of various schemes of amalgamation.

The intangible assets are amortized over the estimated useful lives as given below:

- Computer Software : 6 years
- Non-Compete : Over the period of the agreement.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Research and Development Expenditure

Research Expenditure:

Revenue expenditure on research & development is charged to the Statement of Profit and Loss of the year in which it is incurred.

Capital expenditure incurred during the period on research & development is accounted for as an addition to property, plant & equipment or intangible assets.

I. Share-based payments:

- a. Employees of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).
- b. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.
- c. That cost is recognized, together with a corresponding increase in share-based payment reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest.
- d. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

J. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and commodity futures contracts.

Financial instruments also cover contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Any gain or losses arising from changes in the fair value of derivatives are recognized in the statement of profit and loss.

i. Financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

- Where assets are measured at fair value, gains and losses are either recognized entirely in the Statement of Profit and Loss (i.e. fair value through profit or loss), or recognized in Other Comprehensive Income (i.e. fair value through other comprehensive income), where permissible.
- A financial asset that meets the following two conditions is measured at amortized cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Initial recognition & measurement

At initial recognition, the Company measures a financial asset at fair value plus, in the case of a financial asset not recorded at fair value through the Statement of Profit or Loss, transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Equity investments (other than investments in subsidiaries, associates and joint venture)

- All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

- If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.
- Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Investments in Subsidiaries, Associates & Joint Ventures:

Investments in subsidiaries, associates & joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint ventures the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

Subsequent remeasurement of the contingent consideration which represents a financial liability or asset, is recognized through Statement of profit and loss account.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's Statement of Assets and Liabilities) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, deposits and bank balance.
- Trade receivables - The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

ii. Financial liabilities

Classification

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

The Company classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through the Statement of Profit and Loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

The Company's financial liabilities include trade and other payables, acceptances, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Assets and Liabilities if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

K. Provisions, contingent liabilities and contingent assets

Provisions are recognized in accordance with Ind AS 37 – Provisions, Contingent liabilities and Commitments, when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expenses relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. If the projected obligation declines as a result of a change in the estimate, the provision is reversed by the corresponding amount and the resulting income recognized in the expenses in which the original charge was recognized.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognized as finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

A contingent asset is not recognized but disclosed in the standalone financial statements where an inflow of economic benefit is probable.

Commitments includes the amount of purchase order (net of advance) issued to counterparties for completion of assets.

Provisions, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date.

L. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

M. Impairment of non-financial assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amounts of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor that reflects current market assessments of the time value of money and the risk specific to the asset.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets, such reversal is not recognized.

N. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

O. Government Grants

Grants are recognized when there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an asset, the cost of the asset is shown at gross value and grant thereon is treated as a deferred grant which is recognized as income in the Statement of Profit and Loss over the period and in proportion in which depreciation is charged.

Revenue grants are recognized in the Statement of Profit and Loss in the same period as the related cost which they are intended to compensate are accounted for.

P. Earnings Per Share ("EPS")

The basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit/(loss) after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Q. Biological assets

Biological assets are measured at fair value less costs to sell, with any change therein recognized in the Statement of Profit and Loss.

The Company has operations in oil palm business whereby the Company purchases the saplings and sells the saplings once it has achieved the desired growth. During the year ended March 31, 2024, the Company purchased 29,31,037 (Previous year: 17,20,356) number of saplings, out of which 29,31,037 (Previous year: 17,20,356) were still under cultivation.

B. Measurement of Fair value

i. Fair Value hierarchy

The fair value measurements for oil palm saplings has been categorised as Level 3 fair values based on the inputs to valuation technique used.

ii. Level 3 Fair values

The following table shows a break down of the total gains / (losses) recognised in respect of Level 3 fair values-

(₹ in crore)

Particulars	March 31, 2024	March 31, 2023
Gain / (Loss) included in 'other operating revenue'	2.41	3.91
Change in fair value - (realised)	(2.58)	(0.19)
Change in fair value - unrealised	4.99	4.10

iii. Valuation techniques and significant unobservable inputs

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Oil Palm Saplings - it comprises the stock under cultivation	Cost approach and percentage completion method	Estimated cost of completing the stock under cultivation - ₹106.90 to ₹137.19 per sapling (Previous year ₹ 95.06 to ₹128.59)	The estimated fair valuation would increase/(decrease) if - Estimated cost to complete was lower (higher)

C. Risk Management strategies related to agricultural activities

The Company is exposed to the following risks relating to its Oil Palm business.

i. Regulatory and environmental risks

The Company is subject to laws and regulations in the country in which it operates. It has established various environmental policies and procedures aimed at compliance with the local environmental and other laws.

ii. Supply and demand risks

The Company is exposed to risks arising from fluctuations in the price and sales volume of plants. When possible, the Company manages this risk by aligning its harvest volume to market supply and demand. Management performs regular industry trend analysis for projected harvest volumes and pricing.

iii. Climate and other risks

The Company's Oil Palm business is exposed to the risk of damage from climatic changes, diseases, forest fires and other natural forces. The Company has extensive processes in place aimed at monitoring and mitigating those risks, including regular plantation health surveys and industry pest and disease surveys.

A reasonably possible change of 10% in estimated cost of completing the stock under cultivation at the reporting date would have increased (decreased) profit or loss by the amounts shown below.

Note 40 : Employee benefits

The Company contributes to the following post-employment plans in India.

Defined Contribution Plans:

The Company's contributions paid/payable to Regional Provident Fund at certain locations, Superannuation Fund, Employees State Insurance Scheme, Employees Pension Schemes, 1995 and other funds, are determined under the relevant approved schemes and/or statutes and are recognised as expense in the Standalone Statement of Profit and Loss during the year in which the employee renders the related service. There are no further obligations other than the contributions payable to the approved trusts/appropriate authorities.

The Company recognised ₹ 12.41 crore for the year ended March 31, 2024 (Previous Year ₹ 11.01 crore) towards provident fund contribution, ₹ 0.28 crore for the year ended March 31, 2024 (Previous Year ₹ 0.37 crore) towards employees' state insurance contribution, ₹ 0.54 crore for the year ended March 31, 2024 (Previous Year ₹ 0.44 crore) towards National Pension Scheme and ₹ 0.40 crore for the year ended March 31, 2024 (Previous Year ₹ 0.45 crore) towards superannuation fund contribution in the Standalone Statement of Profit and Loss.

Defined Benefit Plan:**I. Provident Fund**

The Company manages the Provident Fund plan through a Provident Fund Trust for its employees which is permitted under The Employees' Provident Fund and Miscellaneous Provisions Act, 1952 and is actuarially valued. The plan envisages contribution by the employer and employees and guarantees interest at the rate notified by the Provident Fund authority. The contribution by employer and employee, together with interest, are payable at the time of separation from service or retirement, whichever is earlier.

The Company has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is shortfall of ₹1.06 core as at March 31, 2024, which has been recognised as expense in profit and loss under employee benefit expenses.

(₹ in crore)		
Particulars	March 31, 2024	March 31, 2023

Valuation assumptions under Deterministic Approach:		
Whilst In service Withdrawal	5.00%	5.00%
Rate of Discounting	7.20%	7.46%
Guaranteed Rate of Interest	8.25%	8.15%

II. Gratuity

In accordance with the provisions of the Payment of Gratuity Act, 1972, the Company has a defined benefit plan which provides for gratuity payments. The plan provides a lump sum gratuity payment to eligible employees at retirement or termination of their employment. The amounts are based on the respective employee's last drawn salary and the years of employment with the Company.

Liabilities in respect of the gratuity plan are determined by an actuarial valuation, based upon which the Company makes annual contributions to the Group Gratuity cum Life Assurance Schemes administered by the ICICI Prudential Life insurance, a funded defined benefit plan for qualifying employees. The Company has a Gratuity Trust and the Trustees administer the contributions made by the Company to the gratuity scheme.

The most recent actuarial valuation of the defined benefit obligation along with the fair valuation of the plan assets in relation to the gratuity scheme was carried out as at March 31, 2024. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the details of the employee benefit obligation and the plan assets as at balance sheet date:

Assumptions regarding future mortality have been based on published statistics and mortality tables.

iv. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

(₹ in crore)

Particulars	March 31, 2024		March 31, 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(1.90)	2.14	(1.78)	1.99
Future salary growth (1% movement)	2.16	(1.95)	2.02	(1.83)
Rate of employee turnover (1% movement)	0.29	(0.33)	0.31	(0.34)

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting year.

v. Expected future cash flows

The expected future cash flows in respect of gratuity were as follows

(₹ in crore)

Expected future benefit payments	March 31, 2024	March 31, 2023
1st Following year	6.97	4.15
2nd Following year	2.83	5.46
3rd Following year	4.68	3.21
4th Following year	3.55	4.42
5th Following year	3.39	3.30
Thereafter	39.55	37.51

Other long-term employee benefits:

Compensated absences are payable to employees at the rate of daily basic salary for each day of accumulated leave on death or on resignation or upon retirement. The charge towards compensated absences for the year ended March 31, 2024 based on actuarial valuation using the projected accrued benefit method is ₹ 2.04 crore (previous year ₹ 1.00 crore).

Termination Benefits: All termination benefits including voluntary retirement compensation are fully written off to the Statement of Profit & Loss.

Incentive Plans: The Company has a scheme of Incentives to employees which is fully expensed in the Statement of Profit & Loss in the respective periods. The Scheme rewards its employees based on the achievement of key performance indicators and profitability, as prescribed in the scheme.

Note 41: Share-based payment arrangements:

Description of share-based payment arrangements

Employee stock grant scheme - equity settled

The Company had set up the Employees Stock Grant Scheme 2018 (ESGS) pursuant to the approval by the Shareholders by way of postal ballot, the result of which was declared on June 20, 2018.

The ESGS Scheme is effective from April 1, 2018, (the "Effective Date") and shall continue to be in force until (i) its termination by the Board or (ii) the date on which all of the shares to be vested under Employee Stock Grant Scheme 2018 have been vested in the Eligible Employees and all restrictions on such Stock Grants awarded under the terms of ESGS Scheme, if any, have lapsed, whichever is earlier.

The Scheme applies to the Eligible Employees who are in whole time employment of the Company or its Subsidiary Companies. The entitlement of each employee would be decided by the Nomination and Remuneration Committee of the respective Company based on the employee's performance, level, grade, etc.

The total number of Stock Grants to be awarded under the ESGS Scheme are restricted to 25,00,000 (Twenty five Lakhs) fully paid up equity shares of the Company. Not more than 5,00,000 (Five Lac) fully paid up equity shares or 1% of the issued equity share capital at the time of awarding the Stock Grant, whichever is lower, can be awarded to any one employee in any one year.

The Stock Grants shall vest in the Eligible Employees pursuant to the ESGS Scheme in the proportion of 1/3rd at the end of each year from the date on which the Stock Grants are awarded for a period of three consecutive years, or as may be determined by the Nomination and Remuneration Committee, subject to the condition that the Eligible Employee continues to be in employment of the Company or the Subsidiary company as the case may be.

The Eligible Employee shall exercise her / his right to acquire the shares vested in her / him all at one time within 1 month from the date on which the shares vested in her / him or such other period as may be determined by the Nomination and Remuneration Committee.

The Exercise Price of the shares has been fixed at ₹ 10 per share. The fair value of the employee share options has been measured using the Black-Scholes Option Pricing Model and charged to the Statement of Profit and Loss. The value of the options is treated as a part of employee compensation in the Standalone financial statements and is amortised over the vesting period.

The Company has provided ₹ 2.92 crore (Previous Year ₹ 2.70 crore) for all the eligible employees for current year.

Options outstanding at the end of year 1,07,549. The details of Grant is as follows :

- 14,037 options granted on May 7, 2021,
- 32,060 options granted on May 11, 2022,
- 59,299 options granted on May 9, 2023,
- 2,153 options granted on September 28, 2023.

Following table lists the average inputs to the model used for the plan for the year ended March 31, 2024 :

Particulars	Year ended March 31, 2024	Year ended March 31, 2023	Description of the Inputs used
Dividend yield %	2.15%	1.79%	Dividend yield of the options is based on recent dividend activity.
Expected volatility %	22% - 32%	37% - 42%	Expected volatility of the option is based on historical volatility, during a period equivalent to the option life, of the observed market prices of the Company's publicly traded equity shares.
Risk free Interest rate %	6.913% to 6.952%	5.47% to 6.783%	Risk-free interest rates are based on the government securities yield in effect at the time of the grant.
Expected life of share options	1 to 3 years	1 to 3 years	
Weighted Average Market price on date of granting the options	422.98	532.19	

The Status of the above plan is as under:

Particulars	Year ended March 31, 2023	Year ended March 31, 2022	Weighted average Exercise Price (₹)

Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk;
- Market risk;
- Currency risk;

i. Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Note 42.2: Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Further for domestic sales, the company segments the customers into Distributors and Others for credit monitoring.

The Company maintains security deposits for sales made to its distributors. For other trade receivables, the company individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the Company makes specific provisions against such trade receivables and other financial assets wherever required and monitors the same at periodic intervals. The Company also establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and other financial assets.

The maximum exposure to credit risk for trade and other receivables by type of counterparty was as follows.

(₹ in crore)

Particulars	Carrying amount	
	March 31, 2024	March 31, 2023
Trade receivables (net of impairment)	346.87	464.01

Cash and cash equivalents

The Company held cash and cash equivalents and other Bank balances of ₹ 37.67 crore at March 31, 2024 (Previous Year ₹ 12.52 crore) . The cash and cash equivalents and other bank balances are held with bank and financial institution counterparties with good credit rating.

Note 42.3: Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The company has access to funds from debt markets through loans from banks, commercial papers and other debt instruments.

The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement.

The Company has sufficient current assets to manage the liquidity risk, if any, in relation to current financial liabilities.

Note 42.4 : Currency Risk

Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Our Board of Directors and its Audit Committee are responsible for overseeing our risk assessment and management policies. Our major market risks of foreign exchange, interest rate and counter-party risk are managed centrally by our Company treasury department, which evaluates and exercises independent control over the entire process of market risk management.

Interest rate risk is covered by entering into fixed-rate instruments to ensure variability in cash flows attributable to interest rate risk is minimised.

Currency risk

The functional currency of Company is primarily the local currency in which it operates. The currencies in which these transactions are primarily denominated are INR. The Company is exposed to currency risk in respect of transactions in foreign currency. Foreign currency revenues and expenses are in the nature of export sales and import of purchases / services.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against all other currencies at March 31, 2024 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars (Effect in INR crores)	Profit or (loss) / Equity (net of tax)	
	Strengthening	Weakening
March 31, 2024

March 31, 2023		
USD (3% movement)	0.47	(0.47)
EUR (4% movement)	-	-
	0.47	(0.47)

Note: Sensitivity has been calculated using standard Deviation % of Foreign currency rate movement.

Note 42.5: Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets/borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

(₹ in crore)

Particulars	March 31, 2024	March 31, 2023
Fixed-rate instruments		
Financial assets		
Loans and Advances	178.20	143.51

TOTAL	634.27	773.52
Variable-rate instruments		
Financial liabilities		
Borrowings	44.89	45.48
TOTAL	44.89	45.48

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any borrowings at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points (bps) in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars (Effect in INR crores)	Profit or (loss) and Equity (net of tax)		Profit or (loss) and Equity (net of tax)	
	March 31, 2024		March 31, 2023	
	100 bps increase	100 bps decrease	100 bps increase	100 bps decrease

Cash flow sensitivity (net)	(0.34)	0.34	(0.34)	0.34
TOTAL	(0.34)	0.34	(0.34)	0.34

The risk estimates provided assume a change of 100 basis points interest rate for the interest rate benchmark as applicable to the borrowings, loans and advances summarized above. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the year.

The company offsets tax assets and liabilities, if and only if, it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities related to income taxes levied by the same tax authority.

Significant management judgement is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income by each jurisdiction in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

Given that the Company does not have any intention to dispose investments in subsidiaries and certain joint ventures in the foreseeable future, deferred tax asset/liabilities related to such investments has not been recognised.

Note 45 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the Company's Capital Management is to maximise shareholder value. The Company manages its capital structure and makes adjustments in the light of changes in the economic environment and the requirements of the financial covenants, if any.

The Company monitors capital using a ratio of 'adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising interest-bearing loans and borrowings (excluding lease liability) less cash and cash equivalents. Equity comprises all components of equity.

a) The Company's adjusted net debt to equity ratio as at March 31, 2024 and March 31, 2023 was as follows.

Particulars	(₹ in crore)	
	As at March 31, 2024	As at March 31, 2023
Total borrowings	586.91	734.55
Less : Cash and cash equivalents	37.36	12.26
Adjusted net debt	549.55	722.29
Total equity	2,259.17	2,082.00
Adjusted net debt to equity ratio	0.24	0.35

Note 46.1 : Contingent liabilities represents estimates made mainly for probable claims arising out of litigation/ disputes pending with authorities under various statutes (Excise duty, Customs duty, Income tax). The probability and timing of outflow with regard to these matters depend on the final outcome of litigations/ disputes. Hence, the Company is not able to reasonably ascertain the timing of the outflow.

Note 46.2 : The Hon'ble Supreme Court of India ("SC") by their order dated February 28, 2019, in the case of Surya Roshani Limited & others v/s EPFO, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. The company has started complying with this prospectively from the month of March 2019. In respect of the past period there are significant implementation and interpretative challenges that the management is facing and is awaiting for clarity to emerge in this regard, pending which, this matter has been disclosed under the Contingent liability section in the Standalone financial statements. The impact of the same is not ascertainable.

INDEPENDENT AUDITOR'S REPORT

To the Members of Godrej Agrovet Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Godrej Agrovet Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its associate and joint ventures, which comprise the consolidated balance sheet as at 31 March 2024, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate/consolidated financial statements of such subsidiaries, associate and joint ventures as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associate and joint ventures as at 31 March 2024, of its consolidated profit and other comprehensive loss, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate and joint ventures in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment and based on the consideration of reports of other auditors on separate/consolidated financial statements of components audited by them, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matters

Revenue Recognition	
The key audit matter	How the matter was addressed in our audit
<p>Refer Note 1[9(A)(i)] of accounting policy and Note 29 and Note 30 in consolidated financial statements</p> <p>The Group recognises revenue from sale of goods when control of the goods has transferred and when there are no longer any unfulfilled obligations to the customer. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods. The Group has large number of customers and the sales contracts with customers have different terms relating to transfer of control of underlying goods and the right of return.</p> <p>We identified the recognition of revenue from sale of products as a key audit matter because:</p> <ul style="list-style-type: none"> The Group and its external stakeholders focus on revenue as a key performance indicator. This could create an incentive for higher revenue to be recognised throughout the period (including period end), i.e. before the control of underlying goods have been transferred to the customer; and Estimation of accrual for sales returns, particularly in the crop protection segment involves significant judgement. 	<p>Our audit procedures included following:</p> <ul style="list-style-type: none"> Assessing the Group's accounting policies in respect of revenue recognition by comparing with applicable accounting standards; Evaluating the design, testing the implementation and operating effectiveness of the Group's internal controls over recognition of revenue on selected samples of transactions; Perform substantive testing and cut-off testing throughout the period (including period end), by selecting samples using statistical sampling of revenue transactions recorded during the year and verifying the underlying documents, which included sales invoices, dispatch documents and proof of delivery, depending on the terms of contracts with customer; Examining journal entries (using statistical sampling) posted to revenue to identify unusual or irregular items; Evaluating the design and testing the implementation and operating effectiveness of the internal controls over accrual for sales returns, in crop protection segment;

Revenue Recognition	
The key audit matter	How the matter was addressed in our audit
	<ul style="list-style-type: none"> • Checking completeness and accuracy of the data used for accrual of sales returns, in crop protection segment by verifying the historical data with underlying books of accounts; • Examining historical trend of sales return claims to assess the assumptions and judgements used in accrual of sales returns in crop protection segment. Comparing historically recorded accruals to the actual amount of sales returns; • Evaluating adequacy of disclosures given in the consolidated financial statements.
Goodwill and intangible assets	
See note 1[5], 1[9(N)] and 52 to the consolidated financial statements	
The key audit matter	How the matter was addressed in our audit
<p>The Goodwill and intangible assets with indefinite life is recognised pursuant to business acquisitions.</p> <p>Management performs an annual impairment testing for Goodwill and intangible assets having indefinite life or more frequently if events or changes in circumstances indicate that they might be impaired.</p> <p>The goodwill and intangible assets are attributable to cash generating units and is tested for impairment using a value in use model, as described in note 1 [9(N)] to the consolidated financial statements. We consider the impairment evaluation of Goodwill by management to involve significant estimates and judgement, due to the inherent uncertainty involved in forecasting and discounting future cash flows.</p> <p>Accordingly, this is considered as a key audit matter.</p>	<p>Our audit procedures include the following:</p> <ul style="list-style-type: none"> • Assessing the Group's accounting policy for impairment of goodwill and intangible assets with applicable accounting standards; • Testing the design, implementation and operating effectiveness of key controls placed around the impairment assessment process of goodwill and intangible assets; • Obtaining and assessing the valuation working prepared by the management for its impairment assessment; • Involving valuation specialists to assist in the evaluation of assumptions such as discount rate, growth rate etc. in estimating projections, cash flows and methodologies used by the Group; • Comparing the current year's performance with the projections used in previous year; • Assessing the sensitivity of the outcome of impairment assessment to changes in key assumptions; and • Assessing the adequacy of disclosures in respect of such goodwill and intangible assets in accordance with the accounting standards.

Other Information

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the financial statements and auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/audit reports of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associate and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and of its associate and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associate and joint ventures are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate and joint ventures are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit, we also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group and its associate and joint ventures to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- a. We did not audit the financial statements of three subsidiaries, whose financial statements reflect total assets (before consolidation adjustments) of ₹ 92.96 crores as at 31 March 2024, total revenues (before consolidation adjustments) of ₹ 54.77 crores and net cash inflows (before consolidation adjustments) amounting to ₹ 0.42 crores for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit (and other comprehensive income) of ₹ 66.38 crores for the year ended 31 March 2024, in respect of one joint venture, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and joint venture is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to our reliance on the work done and the reports of the other auditors.

- b. The financial information of one subsidiary, whose financial information reflects total assets (before consolidation adjustments) of ₹ 0.002 crores as at 31 March 2024, total revenues (before consolidation adjustments) of ₹ Nil and net cash flows (before consolidation adjustments) amounting to ₹ Nil for the period ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. The consolidated financial statements also include the Group's share of net loss (and other comprehensive income) of ₹ 13.56 crores for the year ended 31 March 2024, as considered in the consolidated financial statements, in respect of one associate and one joint venture, whose financial information have not been audited by us or by other auditor. These unaudited financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary, joint venture and associate, and our report in terms of sub-section (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary, joint venture and associate, is based solely on such unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to the financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. A. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate/ consolidated financial statements of such subsidiaries and joint venture as were audited by other auditors, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors, except for the matter stated in the paragraph 2(B)(f) below, for one subsidiary company, on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - c. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors of the Holding Company as on 31 March 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act.
 - f. the modifications relating to the maintenance of accounts and other matters connected therewith for one subsidiary company, are as stated in the paragraph 2(A)(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(B) (f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.
- B. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate/ consolidated financial statements of the subsidiaries and joint ventures, as noted in the “Other Matters” paragraph:
- a. The consolidated financial statements disclose the impact of pending litigations as at 31 March 2024 on the consolidated financial position of the Group, its associate and joint ventures. Refer Note 47 to the consolidated financial statements.
 - b. Provision has been made in the consolidated financial statements, as required under the applicable law or Ind AS, for material foreseeable losses, on long-term contracts including derivative contracts. Refer Note 27 to the consolidated financial statements in respect of such items as it relates to the Group, its associate and joint ventures.

Annexure B to the Independent Auditor's Report on the consolidated financial statements of Godrej Agrovet Limited for the year ended 31 March 2024

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of Godrej Agrovet Limited (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary companies, as of that date.

In our opinion and based on the consideration of reports of the other auditors on internal financial controls with reference to financial statements/ financial information of subsidiary companies as were audited by the other auditors, the Holding Company and such companies incorporated in India which are its subsidiary companies, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary companies in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to three subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of this matter.

Notes forming part of the Consolidated Financial Statement

Note 1. Material Accounting Policies

1. General information

Godrej Agrovat Ltd. (“the Company” or “Parent”) is a public limited Company, which is domiciled and incorporated in the Republic of India with its registered office situated at 3rd Floor, Godrej One, Pirojshanagar, Vikhroli (East), Mumbai – 400 079. The Company and its subsidiaries (the “Group”), its joint ventures and its associates is a diversified agribusiness Group and its principal activities include manufacturing and marketing of high quality animal feed, innovative crop protection & agricultural inputs, palm oil & allied products, poultry and processed food & milk and milk products.

2. Basis of preparation and presentation

(i) Basis of preparation:

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (‘Act’) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The consolidated financial statements of the Group for the year ended March 31, 2024 were authorized for issue in accordance with a resolution of the Board of Directors on May 8, 2024.

Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Group’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time taken between acquisition of assets for processing and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of classification of assets and liabilities into current and non-current.

(ii) Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer accounting policy regarding financial instruments)
- asset held for sale and biological Assets – measured at fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value less present value of defined benefit obligation; and
- share-based payments

(iii) Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees, which is the Group’s functional currency. All amounts have been rounded off to the nearest crore, unless otherwise indicated. The amount reflected as “0.00” in Financials are value with less than one lakh.

3. Basis of consolidation

The Consolidated Financial Statements (CFS) comprises the Financial Statements of Godrej Agrovat Limited (“the Company”) and its Subsidiaries (herein after referred together as “the Group”), Joint Ventures and Associates. The CFS of the Group have been prepared in accordance with the Indian Accounting Standards on “Consolidated Financial Statements” (Ind AS 110), “Joint Arrangements” (Ind AS 111), “Disclosure of Interest in Other Entities” (Ind AS 112), “Investment in Associates and Joint Ventures” (Ind AS 28) notified under Section 133 of the Companies Act, 2013

(i) Subsidiaries :

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. When the Company loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in the Statement of Profit or Loss.

The financial statement of the Company, its Subsidiaries, Joint Ventures and Associates used in consolidation procedure are drawn upto the same reporting date i.e. March 31,2024. The acquisition method of accounting is used to account for business combinations by the Group. The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Inter Group transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed wherever necessary to ensure consistency with the policies adopted by the Group.

Non -controlling interests (NCI) in the results and equity of subsidiaries are shown separately in consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively and are measured at proportionate share of the acquiree's net fair value of identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Equity method :

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in the Consolidated Statement of Profit and Loss, and the Group's share of other comprehensive income of the investee in other comprehensive income.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, then unless it has incurred obligations or made payments on behalf of the other entity, Group does not recognize further losses, Unrealized gains on transactions between the Group and its equity accounted investees are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

4 Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the

- Fair value of the assets transferred;
- Liabilities incurred to the former owners of the acquired business;
- Equity interests issued by the Group
- Fair value of any asset or liability resulting from contingent consideration arrangement

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at their fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition related costs are expenses as incurred.

The excess of the

- Consideration transferred;
- Amount of any non-controlling interest in the acquired entity; and
- Acquisition date fair value of any previous equity interest in the acquired entity over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets acquired, the difference is recognized in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognized directly in equity as capital reserve.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest is remeasured to fair value at the acquisition date. Any gains arising from such remeasurement are recognized in the Consolidated Statement of Profit and Loss or Other Comprehensive Income, as appropriate.

5. Key estimates and assumptions

While preparing consolidated financial statements in conformity with Ind AS, the management has made certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Future events rarely develop exactly as forecasted and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Judgement, estimates and assumptions are required in particular for:

- **Determination of the estimated useful lives**

Useful lives of property, plant and equipment are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II and in case of intangible assets, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

- **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations. Due to complexities involved in the valuation and its long term nature, defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting period.

- **Recognition and measurement of Long term employee incentives**

Accrual for long term employee incentive scheme liability requires estimates and judgements in respect of achievement of parameters of business performance. These estimates are based on past performance, approved budgets and plans and other relevant information considered on a best estimate basis as at the reporting date.

- **Recognition of deferred tax assets**

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

- **Recognition and measurement of provisions**

- a. Provision for sales returns

The Group makes a provision for estimated sales returns, based on its historical experience and is dependent on other relevant factors.

- b. Provision for doubtful trade receivables

The Group has large number of individual small customers. Management assesses the level of allowance for doubtful debts after taking into account ageing analysis and any other factor specific to individual counterparty and a collective estimate based on historical experience adjusted for certain current factors.

- c. The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

- **Discounting of long-term financial assets / liabilities**

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities/assets which are required to subsequently be measured at amortized cost, interest is accrued using the effective interest method.

- **Fair valuation of employee share options**

The fair valuation of the employee share options is based on the Black-Scholes model used for valuation of options. Key assumptions made with respect to expected volatility includes share price, expected dividends and discount rate, under this option pricing model.

- **Determining whether an arrangement contains a lease**

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgment in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

- **Rebates**

Rebates are generally provided to distributors or customers as an incentive to sell the Group's products. Rebates are based on purchases made during the period by distributor / customer. The Group determines the estimates of rebate accruals primarily based on the contracts entered into with their distributors / customers and the information received for sales made by them.

- **Impairment of goodwill and intangible assets with indefinite useful life**

The Group estimates the value-in-use of the cash generating units (CGUs) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rates used for the CGUs represent the weighted average cost of capital based on the historical market returns of comparable companies.

- **Fair value of financial instruments**

Derivatives are carried at fair value. Derivatives includes foreign currency forward contracts and commodity. Fair value of foreign currency forward contracts are determined using the fair value reports provided by respective bankers.

- **Biological Assets**

Management uses inputs relating to production and market prices in determining the fair value of biological assets.

6. Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values for, both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

7. Recent pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issue from time to time. On March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the company.

8. Changes in material accounting policies:

- The Company previously accounted for deferred tax on leases and decommissioning liabilities by applying the "integrally linked" approach, resulting in a similar outcome as under the amendments, except that the deferred tax asset or liability was recognized on a net basis. Following the amendments, the Company has recognized a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right of use assets as at 1st April 2022 and thereafter. However, there was no impact on the balance sheet because the balances qualify for offset under paragraph 74 under IND AS 12. There was also no impact on the opening retained earning as at 1st April 2022 as a result of the change. The key impact for the company relates to disclosure of the deferred tax assets and liabilities recognized.
- Material accounting policy information

The company adopted Disclosure of Accounting Policies (Amendments to IND AS 1) from 1st April 2023. Although the amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity specific accounting policy information that users need to understand other information in the financial statement.

9. Material accounting policies

A. Revenue and Other income

i. Sale of goods

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Group as part of the contract. Discounts given by the Group includes trade discounts, volume rebates and other incentive given to the customers. Accumulated experience is used to estimate the provision for discounts. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.

Revenue from the sale of goods are recognized when control of the goods has transferred to our customer and when there are no longer any unfulfilled obligations to the customer. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods. This is considered the appropriate point where the performance obligations in our contracts are satisfied as the Group no longer have control over the inventory.

Our customers have the contractual right to return goods only when authorized by the Group. As at 31 March 2023, an estimate has been made of goods that will be returned and a liability has been recognized for this amount. An asset has also been recorded for the corresponding inventory that is estimated to return to the Group using a best estimate based on historical experience.

ii. Dividend income

Dividend income is recognized only when the right to receive the same is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of dividend can be measured reliably.

iii. Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR), which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where appropriate, to the net carrying amount of the financial assets. Interest income is included in other income in the Consolidated Statement of Profit and Loss.

iv. Subsequent remeasurement of the contingent consideration which represents a financial liability or asset, is recognized through profit and loss account.

B. Foreign currency

i. Transactions and balances

Transactions in foreign currencies are translated into the respective functional currencies of the Group at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Group's monetary items at the closing rate are recognized as income and expenses in the period in which they arise.

Exchange differences are generally recognized in the Statement of Profit and Loss, except exchange differences arising from the translation of the following item which are recognized in OCI:

On consolidation, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit and loss are translated at average rate during the year. The exchange differences arising on translation for consolidation are recognized in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognized in statement of profit and loss.

C. Employee benefits

i. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short-term employee benefits. Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Short-term benefits such as salaries, wages, short-term compensation absences, etc., are determined on an undiscounted basis and recognized in the period in which the employee renders the related service.

ii. Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund and Family pension maintained with Regional Provident Fund Office are expensed as the related service is provided.

iii. Defined benefit plans

The following post – employment benefit plans are covered under the defined benefit plans:

- Provident Fund Contributions other than those made to the Regional Provident Fund Office of the Government which are made to the Trust administered by the Group.

The Group's contribution to the Provident Fund Trust as established by the Group, is also considered as a Defined Benefit Plan because, as per the rules of Group's Provident Fund Scheme, 1952, if the return on investment is less than the guaranteed rate of return for any reason, then the deficiency shall be made good by the Group. The Group's net obligations in respect of such plans is calculated by estimating the amount of future benefit that the employees have earned in return for their services and the current and prior periods that benefit is discounted to determine its present value and the fair value of the plan asset is deducted.

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

- Gratuity Fund

The Group provides for gratuity, a defined benefit retirement plan covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income (OCI). They are included in retained earnings in the statement of changes in equity and in the balance sheet.

iv. Other long-term employee benefits

Liability toward long-term Compensated Absences are provided for on the basis of an actuarial valuation, using the Projected Unit Credit Method, as at the date of the Balance Sheet. Actuarial gains / losses comprising of experience adjustments and the effects of changes in actuarial assumptions are immediately recognized in the Consolidated Statement of Profit and Loss.

Other long term employee benefits include payable in respect of long term incentive scheme recorded by estimating the possible cash outflows based on assessment of parameters of the scheme and discounted at present value.

v. Terminal Benefits:

All terminal benefits are recognized as an expense in the period in which they are incurred.

D. Income Tax

Income tax expense comprises current and deferred tax. It is recognized in the Statement of Profit and Loss except to the extent that it relates to a business combination, or items recognized directly in equity or in the OCI.

i. Current tax

Current tax is the amount of tax payable (recoverable) in respect of the taxable profit / (tax loss) for the year determined in accordance with the provisions of the Income-Tax Act, 1961. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Group:

- has a legally enforceable right to set off the recognized amounts; and
- intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

ii. Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Taxes relating to items recognized directly in equity or OCI is recognized in equity or OCI and not in the consolidated statement of profit and loss.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

E. Inventories

Inventories are carried in the consolidated balance sheet as follows:

- (a) Raw materials, Packing materials, Stock in Trade and Stores & Spares: At lower of cost, on weighted average basis and net realizable value.
- (b) Work-in-progress / project in progress -: At lower of cost of materials, plus appropriate production overheads and net realizable value.
- (c) Finished Goods-: At lower of cost of materials, plus appropriate production overheads and net realizable value.

The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to the present location and condition. Slow and non-moving material, obsolescence, defective inventories are duly provided for and valued at lower of cost and net realizable value. Goods and materials in transit are valued at actual cost incurred upto the date of balance sheet. Materials and supplies held for use in the production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost.

- (d) Land development project in progress includes cost of land, development management fees, construction cost, allocated interest and expenses attributable to the construction of the project undertaken by the Group.

F. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses, if any.

The cost of an item of property, plant and equipment comprises:

- a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) any direct cost attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

- c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognized in the Consolidated Statement of Profit and Loss.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when there is no future economic benefits expected from its use or disposal.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in the Consolidated Statement of Profit and Loss.

On transition to Ind AS, the Group had elected to continue with the carrying value of all its property, plant and equipment as recognized as at April 01, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

ii. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and cost can be measured reliably

iii. Depreciation/ Amortizations

Depreciation on tangible fixed assets is provided in accordance with the provisions of Schedule II of the Companies Act 2013, on Straight Line Method. Depreciation on additions / deductions is calculated on pro rata basis from/up to the month of additions/deductions. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. In case of the following category of property, plant and equipment, the depreciation has been provided based on the technical specifications, external & internal assessment, requirement of refurbishments and past experience of the remaining useful life which is different from the useful life as specified in Schedule II to the Act:

- (a) Plant and Machinery : - 20 Years
- (b) Computer Hardware, Crates, cans and milko testers:
Depreciated over the estimated useful life of 4 years.
- (c) Leasehold Land:
Amortized over the lease term.
- (d) Leasehold improvements and equipment:
Amortized over the Primary lease period.

Assets costing less than ₹ 5,000 are fully depreciated in the year of purchase/acquisition.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e higher of the fair value less cost to sell and value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

G. Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

H. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

I. Intangible assets

Recognition and measurement

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the assets will flow to the Group and the cost of the asset can be measured reliably.

Intangible assets viz. Technical Know-how fees, Grant of Licenses and Computer software, which are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses, if any except goodwill. Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired and measured at cost less accumulated impairment losses, if any.

Amortization

Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognized in the Statement of Profit and Loss.

The intangible assets are amortised over the estimated useful lives as given below:

- Computer Software : 6 years
- Technical Know-how of a capital nature & Product Registration expenses : 6 years
- Brands : 20 years
- Non compete Right : Amortized over the period of the agreement.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Research and Development Expenditure

Research Expenditure:

Revenue expenditure on research & development is charged to the Consolidated Statement of Profit and Loss of the year in which it is incurred.

Capital expenditure incurred during the period on research & development is accounted for as an addition to intangible assets.

J. Share-based payments:

- a. Employees of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).
- b. The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.
- c. That cost is recognized, together with a corresponding increase in share-based payment reserves in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest.
- d. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

K. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and commodity futures contracts.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Any gain or losses arising from changes in the fair value of derivatives are recognized in the statement of profit and loss.

i. Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

- Where assets are measured at fair value, gains and losses are either recognized entirely in the Consolidated Statement of Profit and Loss (i.e. fair value through profit or loss), or recognized in Other Comprehensive Income (i.e. fair value through other comprehensive income).
- A financial asset that meets the following two conditions is measured at amortized cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business model test: The objective of the Group's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Initial recognition & measurement

At initial recognition, the Group measures a financial asset at fair value plus, in the case of a financial asset not recorded at fair value through the Consolidated Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Equity investments (other than investments in associates and joint venture)

- All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.
- If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.
- Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Consolidated Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognized (i.e. removed from the Group's Consolidated Statement of Assets and Liabilities) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, deposits, and bank balance.

- b) Trade receivables - The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

ii. Financial liabilities

Classification

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

The Group classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through the Consolidated Statement of Profit and Loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the consolidated statement of profit and loss.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Consolidated Statement of Assets and Liabilities if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Derivative financial instruments

The Group uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

L. Provisions, contingent liabilities and contingent assets

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expenses relating to a provision is presented in the Consolidated Statement of Profit and Loss net of any reimbursement. If the projected obligation declines as a result of a change in the estimate, the provision is reversed by the corresponding amount and the resulting income recognized in the expenses in which the original charge was recognized.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognized as finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

A contingent asset is not recognized but disclosed in the consolidated financial statements where an inflow of economic benefit is probable.

Commitments includes the amount of purchase order (net of advance) issued to parties for completion of assets.

Provisions, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date.

M. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognized in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Group recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

N. Impairment of non-financial assets

Goodwill and intangible assets that have infinite useful life are not subjected to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired and measured at cost less accumulated impairment losses, if any.

The carrying values of other assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount in the statement of Profit and Loss.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor that reflects current market assessments of the time value of money and the risk specific to the asset.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognized in the Consolidated Statement of Profit and Loss, to the extent the amount was previously charged to the Consolidated Statement of Profit and Loss. In case of revalued assets, such reversal is not recognized and impairment loss recognized in respect of goodwill is not subsequently reversed. The Group also determines the recoverable amount using market capitalization method, where applicable.

O. Cash and cash equivalents

Cash and cash equivalent in the Consolidated balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

P. Government Grants

Grants are recognized when there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an asset, the cost of the asset is shown at gross value and grant thereon is treated as a deferred grant which is recognized as income in the consolidated statement of profit and loss over the period and in proportion in which depreciation is charged.

Revenue grants are recognized in the consolidated statement of profit and loss in the same period as the related cost which they are intended to compensate are accounted for.

Q. Earnings Per Share ("EPS")

The basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit/(loss) after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

R. Biological assets

Biological assets are measured at fair value less costs to sell, with any change therein recognized in the consolidated statement of profit or loss.

Cattle	Market approach with the help of Valuation certificate	Estimated price impact on age, breed and yield of the Cattle	The estimated fair valuation would increase/(decrease) if - Estimated yield of the cattle is increased or decreased

C. Risk Management strategies related to agricultural activities

The group is exposed to the following risks relating to its plantations, Cattles and PS Bird /Hatching egg /Broiler

i. Regulatory and environmental risks

The group is subject to laws and regulations in the country in which it operates. It has established various environmental policies and procedures aimed at compliance with the local environmental and other laws.

ii. Supply and demand risks

The group is exposed to risks arising from fluctuations in the price and sales volume of plants and milk. For oil palm plants, when possible, the group manages this risk by aligning its harvest volume to market supply and demand. Management performs regular industry trend analyses for projected harvest volumes and pricing. For milk, the Group manages this risk by effective marketing tie up for sale of milk.

The group is exposed to the risk arising from the fluctuations in the price of Hatching eggs, commercial day old chicks and live birds. When the price goes down the management possibly manages this risk by diverting more live birds for processing and when prices go up the management sells more Hatching eggs, Day old Chicks and Live Birds.

iii. Climate and other risks

The group's oil palm plantations are exposed to the risk of damage from climatic changes, diseases, forest fires and other natural forces. The group has extensive processes in place aimed at monitoring and mitigating those risks, including regular plantation health surveys and industry pest and disease surveys.

The Group is exposed to risks arising from fluctuations in yield and health of the Cattle. Group manages this risk by effective sourcing and maintenance of cattle.

The Group's Live stock are exposed to the extreme climatic changes in summer and winter season. However, the Group has extensive processes in place aimed at monitoring and mitigating those risks, including regular health inspections of Live Stock and adopting Industry best practices by professional qualified veterinarian doctors.

A reasonably possible change of 10% in Estimated cost of completing the stock under cultivation at the reporting date would have increased (decreased) profit or loss by the amounts shown below.

General reserve

General reserve is a free reserve which is created by transferring fund from retained earnings to meet future obligations and purposes.

Capital Reserve

Excess of assets recognised over consideration paid on business acquisition made by the group.

Exchange differences on translating the financial statements of a foreign operation

Exchange differences arising on translation of the foreign operations, if any, are recognised in other comprehensive income as described in accounting policy and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed-off.

Effective portion of Cash Flow Hedges

The Group uses hedging instruments as part of its management of foreign currency risk associated with foreign currency borrowings. For hedging foreign currency risk, the group used foreign currency forward contracts which are designated as cash flow hedges. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedge reserve. Amounts recognised in the cash flow hedge reserve is reclassified to statement of profit & loss when the hedged item affects the profit & loss.

Non- controlling Interest Reserve

Non- controlling Interest Reserve represent the difference between the consideration paid and the carrying value of non- controlling interest acquired in subsidiaries.

Employee stock grants outstanding

The employee share grant outstanding account is used to recognise grant date fair value of options issued to employees under the Company's stock option plan.

Debenture Redemption Reserve (DRR)

The Group has issued redeemable non-convertible debentures. Accordingly, the Companies (Share capital and Debentures) Rules, 2014 (as amended), require the Group to create DRR out of profits of the Group available for payment of dividend. DRR is required to be created for an amount which is equal to 10% of the value of debentures issued as per Section 71(4) of the Companies Act, 2013, read with Rule 18(7) of the Companies (Share Capital And Debentures) Rules, 2014.

Securities Premium

Securities Premium Account is used to record the premium received on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

Note 40 : Employee benefits

The group contributes to the following post-employment plans in India.

Defined Contribution Plans:

The group's contributions paid/payable to Regional Provident Fund at certain locations, Super Annuation Fund, Employees State Insurance Scheme, Employees Pension Schemes, 1995 and other funds are determined under the relevant approved schemes and/or statutes and are recognised as expense in the Statement of Profit and Loss during the period in which the employee renders the related service. There are no further obligations other than the contributions payable to the approved trusts/appropriate authorities.

The group recognised ₹ 21.47 crore for the year ended March 31, 2024 (Previous Year ₹ 19.67 crore) towards provident fund contribution ₹ 0.28 crore for the year ended March 31, 2024 (Previous Year ₹ 0.62 crore) towards employees' state insurance contribution, ₹ 0.54 crore for the year ended March 31, 2024 (Previous Year ₹ 0.44 crore) towards National Pension Scheme and ₹ 0.40 crore for the year ended March 31, 2024 (Previous Year ₹ 0.45 crore) towards superannuation fund contribution in the Statement of Profit and Loss.

Defined Benefit Plan:

I. Provident Fund

- The Group manages the Provident Fund plan through a Provident Fund Trust for its employees which is permitted under The Employees' Provident Fund and Miscellaneous Provisions Act, 1952 and is actuarially valued. The plan envisages contribution by the employer and employees and guarantees interest at the rate notified by the Provident Fund authority. The contribution by employer and employee, together with interest, are payable at the time of separation from service or retirement, whichever is earlier.

The Group has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is shortfall of ₹1.06 core as at March 31, 2024, which has been recognised as expense in Statement of Profit and Loss under employee benefit expenses.

(₹ in crore)		
Particulars	March 31, 2024	March 31, 2023
Plan assets at period end, at fair value	217.18	194.88
Provident Fund Corpus/ obligation	218.24	194.59
Valuation assumptions under Deterministic Approach:		
Whilst In service Withdrawal	5.00%	5.00%
Rate of Discounting	7.20%	7.46%
Guaranteed Rate of Interest	8.25%	8.15%

II. Gratuity

The group's gratuity schemes are defined benefit plans. The group's liability for the defined benefit schemes is actuarially determined based on the projected unit credit method. The group's net obligations in respect of such plans is calculated by estimating the amount of future benefit that the employees have earned in return for their services in the current and prior periods and that benefit is discounted to determine its present value and the fair value of the plan asset is deducted. Actuarial gains and losses are recognised immediately in the Other Comprehensive Income in the Statement of Profit and Loss.

In accordance with the provisions of the Payment of Gratuity Act, 1972, the Group has a defined benefit plan which provides for gratuity payments. The plan provides a lump sum gratuity payment to eligible employees at retirement or termination of their employment. The amounts are based on the respective employee's last drawn salary and the years of employment with the Group.

Liabilities in respect of the gratuity plan are determined by an actuarial valuation, based upon which the Group makes annual contributions to the Group Gratuity cum Life Assurance Schemes administered by the ICICI Prudential Life insurance, a funded defined benefit plan for qualifying employees. The Holding Company has a Gratuity Trust and Trustees administer the contributions made by the Company to the gratuity scheme. The employee gratuity fund scheme for other Indian subsidiaries is managed by Life Insurance Corporation of India.

The most recent actuarial valuation of the defined benefit obligation along with the fair valuation of the plan assets in relation to the gratuity scheme was carried out as at March 31, 2024. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the details of the employee benefit obligation and the plan assets as at balance sheet date:

Employee stock grants - equity settled

The Company had set up the Employees Stock Grant Scheme 2018 (ESGS) pursuant to the approval by the Shareholders by way of postal ballot, the result of which was declared on June 20, 2018.

The ESGS Scheme is effective from April 1, 2018, (the "Effective Date") and shall continue to be in force until (i) its termination by the Board or (ii) the date on which all of the shares to be vested under Employee Stock Grant Scheme 2018 have been vested in the Eligible Employees and all restrictions on such Stock Grants awarded under the terms of ESGS Scheme, if any, have lapsed, whichever is earlier.

The Scheme applies to the Eligible Employees who are in whole time employment of the Company or its Subsidiary Companies. The entitlement of each employee would be decided by the Nomination and Remuneration Committee of the respective Company based on the employee's performance, level, grade, etc.

The total number of Stock Grants to be awarded under the ESGS Scheme are restricted to 25,00,000 (Twenty five Lakhs) fully paid up equity shares of the Company. Not more than 5,00,000 (Five Lac) fully paid up equity shares or 1% of the issued equity share capital at the time of awarding the Stock Grant, whichever is lower, can be awarded to any one employee in any one year.

The Stock Grants shall vest in the Eligible Employees pursuant to the ESGS Scheme in the proportion of 1/3rd at the end of each year from the date on which the Stock Grants are awarded for a period of three consecutive years, or as may be determined by the Nomination and Remuneration Committee, subject to the condition that the Eligible Employee continues to be in employment of the Company or the Subsidiary company as the case may be.

The Eligible Employee shall exercise her / his right to acquire the shares vested in her / him all at one time within 1 month from the date on which the shares vested in her / him or such other period as may be determined by the Nomination and Remuneration Committee.

The Exercise Price of the shares has been fixed at Re. 10 per share. The fair value of the employee share options has been measured using the Black-Scholes Option Pricing Model and charged to the Statement of Profit and Loss. The value of the options is treated as a part of employee compensation in the financial statements and is amortised over the vesting period.

The Company has provided ₹2.92 crore (Previous Year ₹ 2.71 crore) for all the eligible employees for current year.

Following table lists the average inputs to the model used for the plan for the year ended March 31, 2024:

Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ;
- Market risk; and
- Currency risk;

i. Risk management framework

The Holding Company's Board of Directors has overall responsibility for the establishment and oversight of the group's risk management framework. The Board of Directors has established the Risk Management Committee, which is responsible for developing and monitoring the group's risk management policies. The committee reports regularly to the board of directors on its activities

The group's risk management policies are established to identify and analyse the risks faced by the group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the group's activities. The group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the group. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

Note 42.2: Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the group's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The group's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the group grants credit terms in the normal course of business.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the group's standard payment and delivery terms and conditions are offered. The group's export sales are backed by letters of credit, Export Credit Guarantee Corporation and accordingly no provision has been made on the same. Further for domestic sales, the group segments the customers into Distributors and Others for credit monitoring.

The group maintains adequate security deposits for sales made to its distributors. For other trade receivables, the group individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the group makes specific provisions against such trade receivables wherever required and monitors the same at periodic intervals. The group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and loans and advances.

The maximum exposure to credit risk for trade and other receivables by type of counterparty was as follows:

(₹ in crore)

Particulars	Carrying amount	
	March 31, 2024	March 31, 2023
Trade Receivables (net of credit impaired)	518.91	574.03

Cash and cash equivalents and other bank balances

The group held cash and cash equivalents and other bank balances of ₹ 52.87 crore as at March 31, 2024 (Previous Year ₹ 29.51 crore). The cash and cash equivalents and other bank balances are held with bank and financial institution counterparties with good credit rating.

Other than trade and other receivables, the group has no other financial assets that is past due but not impaired.

Note 42.3: Liquidity risk

Liquidity risk is the risk that the group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the group's reputation. The Group has access to funds from debt markets through loans from banks, commercial papers and other debt instruments.

The gross inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to derivative financial liabilities held for risk management purposes and which are not usually closed out before contractual maturity. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement.

The Group has sufficient current assets to manage the liquidity risk, if any, in relation to current financial liabilities.

Note 42.4 : Currency Risk

Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Our Board of Directors and its Audit Committee are responsible for overseeing our risk assessment and management policies. Our major market risks of foreign exchange, interest rate and counter-party risk are managed centrally by our Company treasury department, which evaluates and exercises independent control over the entire process of market risk management.

Interest rate risk is covered by entering into fixed-rate instruments to ensure variability in cash flows attributable to interest rate risk is minimised.

Currency risk

The group's risk management policy is to hedge its foreign currency exposure in accordance with the exposure limits advised from time to time.

The functional currencies of the group companies are primarily the local currency of the respective countries in which they operate. The Group is exposed to currency risk to the extent that there is a mismatch between the currencies in which revenues and expenses are denominated and the respective functional currencies of group companies. The currencies in which these transactions are primarily denominated are INR. Foreign currency revenues and expenses are in the nature of export sales, import purchases, royalty, technical know-how & professional and consultation fees.

Exposure to currency risk

The summary quantitative data about the group's exposure to currency risk as reported to the management of the Group is as follows. The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Indian Rupee against all other currencies at March 31, 2024 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars (Effect in INR crore)	Profit or loss / Equity (net of tax)	
	Strengthening	Weakening

EUR (4% movement)	(0.01)	0.01
CHF (4% movement)	0.00	(0.00)
	0.06	(0.06)

Note: Sensitivity has been calculated using standard Deviation % of USD and EURO rate movement

Note 42.5: Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets/borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows.

			(₹ in crore)

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

					(₹ in crore)	
Particulars	Profit or (loss) and Equity (net of tax)		Profit or (loss) and Equity (net of tax)			
	March 31, 2024		March 31, 2023			
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease		
Variable-rate instruments	(2.26)	2.26	(2.02)	2.02		
Cash flow sensitivity (net)	(2.26)	2.26	(2.02)	2.02		

The risk estimates provided assume a change of 100 basis points interest rate for the interest rate benchmark as applicable to the borrowings, loans and advances summarized above. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the year.

Fair value sensitivity analysis for fixed-rate instruments

The Group does not account for any borrowings at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

The group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities related to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income by each jurisdiction in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

Given that the group does not have any intention to dispose investments in subsidiaries in the foreseeable future, deferred tax asset / liability in relation to such investments has not been recognised.

Deferred tax assets as at March 31, 2024 aggregating to ₹22.41 crores (Previous Year ₹ 38.95 crore) arising on account of business losses/ unabsorbed depreciation incurred. The management has assessed the recoverability of this deferred tax asset within the adequate time-frame.

Note 45 : Capital Management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the group's Capital Management is to maximise shareholder value. The group manages its capital structure and makes adjustments in the light of changes in the economic environment and the requirements of the financial covenants, if any.

The Group monitors capital using a ratio of 'adjusted net debt' to 'equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising interest-bearing loans and borrowings (excluding lease liability) less cash and cash equivalents. Equity comprises all components of equity.

a) **The Group's adjusted net debt to equity ratio at March 31, 2024 and March 31, 2023 were as follows.**

TOTAL	303.10	303.10

Astec LifeSciences Limited

The recoverable amount of this Cash Generating Unit (CGU) is higher of its fair value less cost to sell and its value in use. The goodwill allocated pertains to a listed entity and accordingly, the fair value of the CGU is determined based on market capitalisation.

Creamline Dairy Products Limited

The recoverable amount of a CGU is based on its value in use. The value in use is estimated using discounted cash flows over a period of 3 years. Cash flows beyond 3 years is estimated by capitalising the future maintainable cash flows by an appropriate capitalisation rate and then discounted using appropriate discount rate.

Godrej Agrovet Limited

Operating margins and growth rates for the three year cash flow projections have been estimated based on past experience and after considering the financial budgets/forecasts approved by Board and Directors of the subsidiary. Other key assumptions used in the estimation of the recoverable amount are set out below. The values assigned to the key assumptions represent management's assessment of future trends in the relevant industry and have been based on historical data from both external and internal sources.

Particulars	As at March 31, 2024	As at March 31, 2023
Discount rate	12%	12%
Long term growth rate beyond 3 years	5%	5%

The management believes that any reasonably possible change in the key assumptions would not cause the carrying amount to exceed the recoverable amount of the CGU.

Godrej Tyson Foods Limited

The recoverable amount of a CGU is based on its value in use. The value in use is estimated using discounted cash flows over a period of 3 years. Cash flows beyond 3 years is estimated by capitalising the future maintainable cash flows by an appropriate capitalisation rate and then discounted using appropriate discount rate.
